YOUR HAT

May Be a Stylish One but it Makes

Trouble.

A man usually buys a hat that is "in style," but the modern hat for men has lots to answer for.

Hats are growing more numerous every day. Hats makes excellent breeding places for the parasite germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of dandruff it is a sure sign that those countless germs are busy at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newb's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10 cents in stamps for sample to The Herpicide Co., Detroit, Mich.

J. E. Gayfer, Special Agent, Ingersoll.

## THE BOUNTIES PAID

A Large Increase For Fiscal Year Ended 30th June.

## OUTPUT NEARLY DOUBLED

Pig Iron Increase Was Over 200,000 Tons and Steel Ingots 290,000 Tons—Bounty From Dominion on These Was Over Two Millions But Ceases Next Year—Dom. Steel Co. the Heaviest Earner.

Ottawa, Aug. 29.—The iron and steel bounty payments paid by the Dominion Government for the financial year up to July 1 amount to \$2,084,325, as compared with \$1,540,263 in 1905. The payments indicate a very large increase in the output of the Canadian iron and steel industries.

Bounty amounting to \$657,651 was paid on a total output of 581,558 tons of pig iron; of this, \$5,523 tons was made from Canadian ore. The bounty on this was at the rate of \$1.65, and totalled \$544,868. Last year's output of pig iron was 386,719 tons, of which \$5,652 tons were from Canadian ore. The rate of bounty was higher last year, viz., \$1.50 on foreign and \$2.25 on Canadian ore.

Of steel ingots, 565,237 tons were made in the Canadian mills during the past year, as compared with 275,916 tons in 1905. The payments last year at the rate of \$1.65 per ton, were \$941,000. In 1905, at the rate of \$2.25 per ton, it was \$614,422. Of pig iron, 2,560 tons were made in 1905, as compared with 2,509 tons the year before. The bounty, at \$1.65 per ton, this year, was \$414,212. The payments last year at the rate of \$2.25 per ton were \$564,592.

The Government paid a bounty in 1905 of \$159,832 on 72,775 tons of rolled angles, wire rods, plates, etc. In 1905 the payments were \$293,298, and the bounty \$184,212.

These iron and steel bounties expire next year unless they are renewed by Parliament.

The lead bounty in 1905 totalled \$90,157, as compared with \$220,645 the year before, the rate of bounty being much lower on account of the higher price of lead in the world's markets.

The petroleum bounty, at the rate of 11-2 cents per gallon, showed payments amounting to \$291,357, as compared with \$280,407 in 1905.

There was also paid a bounty amounting to \$107,515 on 2,500 tons of manila used in the manufacture of binder twine, as compared with \$13,735. In 1905 the bounty was allowed on 4,422,209 lbs. of manila used in the manufacture of 8,617,457 lbs. of binder twine.

The total of industrial bounties during the fiscal year ending June 30, 1906, was \$3,088,407, an increase of \$229,056 over the year previous.

The bounty for iron and steel earned by the several companies in 1905-'06 were as follows:

Pig Iron—  
Canada Iron Furnace Co. . . . . \$40,256  
Deseronto Iron Co. . . . . 13,664  
Hamilton Steel & Iron Co. . . . . 28,837  
Dominion Iron & Steel Co. . . . . 25,453  
Nova Scotia Steel & Coal Co. . . . . 65,975  
Londonderry Iron & Mining Co. . . . . 167,420  
Steel Ingots—  
Hamilton Steel & Iron Co. . . . . \$6,578  
Nova Scotia Steel & Coal Co. . . . . 86,807  
Dominion Iron & Steel Co. . . . . 40,671  
Algoma Steel Co. . . . . 367,770

Articles manufactured from steel—  
Dominion Iron & Steel Co. . . . . \$392,413  
Nova Scotia Steel & Iron Co. . . . . 25,815  
Montreal Rolling Mills Co. . . . . 7,386  
Hamilton Steel & Iron Co. . . . . 34,217

## FIVE CARS BURNED.

Caused the C. P. R. a Loss of Between \$3,000 and \$4,000.

Montreal, Aug. 28.—The collision of two freight trains at Berthier Junction yesterday morning caused matches that were contained in one of the cars to ignite, with the result that five cars, filled with various kinds of merchandise, were destroyed by fire, the loss on the C. P. R. on whose line the collision took place, being from \$3,000 to \$4,000.

A brakeman, James H. McNeil, of Earlham, was on the train that was moving into Berthier Junction, and when he saw a collision was inevitable he jumped, with the result that he suffered a compound fracture of the left leg and a sprain of the right ankle, along with many bruises. He was taken to the Victoria Hospital, Montreal.

Jack the Ripper in New York.

New York, Aug. 28.—A woman known as Mrs. Annie Moore was found murdered early yesterday in a furnished room at 6 Second street. She had been horribly ripped and slashed. Jas. Moore, who had posed as the woman's husband, was held by the police on suspicion. It was he who notified them of the murder. The wounds recalled at once to the minds of the officers and doctors who were called the "Jack-the-Ripper" murders of some years ago.

SPECIAL TRAIN TO TORONTO EXHIBITION.

On August 28, 30, Sept. 1, 4, and 6, special trains will leave Ingersoll at 9:31 a.m., arriving Toronto 12:15 p.m., and stopping at the exhibition grounds. Special rate of \$2.30 for round trip will be in effect on these dates, and of \$2.50 will be in effect daily from August 27th to Sept. 6th. All tickets valid returning from Toronto or before Sept. 11th. Call at Grand Trunk depot.

## DEATH OF FORMER RESIDENT

MRS. G. J. SHRAPNELL PASSED AWAY AT TORONTO YESTERDAY.

Many friends in Ingersoll will learn with regret of the death of Mrs. Shrapnell, wife of G. J. Shrapnell, which occurred at Toronto yesterday. Mr. Shrapnell at one time conducted a very successful grocery business here and both he and Mrs. Shrapnell were widely known in the town and surrounding districts.

The funeral will take place from the G. T. R. station on the arrival of the 10:15 train Thursday morning and proceed to the Ingersoll Rural Cemetery.

## THIS AND THAT

The last of the weekly half holidays.

The small boy will "regret to report" for duty next week.

There were two degrees of frost at Regina on Monday night. Wouldn't that freeze you!

The chances are the small boy is just beginning to realize how short the summer has been, now that the schools will reopen next week.

The Hamilton man who was in the police court this morning had nothing to say about Sherrington or the suit cases at home—that is if they have any home.

Some of the "tourists" who have been in Ingersoll during the past few days evidently believe in wearing all their clothes and leaving their suit cases at home—that is if they have any home.

Overcoats for summer wear were never so popular as they have been this season. When a man wears two overcoats in August the problem of selecting his winter garments must indeed be a difficult one.

## THIRTY DAYS FOR VAGRANCY

Robert Bryant, Arrested by Chief Wright, Was Wearing Two Overcoats

Of the many peculiar characters who from time to time find their way into the police court, none have probably created more interest than did Robert Bryant this morning.

It was in regard to his age that Robert first attracted more than usual attention. Despite the fact that he looked to be sixty or more he was positive that he would only be 36 next spring.

But if there was really any inconsistency about Robert it was in his manner of dress. His headgear, which may be an advance sample of next spring's creations, was a mammoth black straw hat. Possibly for the sake of "individuality" more than by way of concealment, Robert wore two overcoats in addition to the regulation suit.

Robert claimed to be a native of Hamilton; but he did not say he was proud of the fact.

He was charged with vagrancy and he was anxious to explain the circumstances under which he was gathered in by Chief Wright yesterday.

"I don't believe it," "I don't care whether you do or not," was the quick retort.

Robert wished the magistrate to understand that he was industrious and temperate. He said he had been working on a farm near Springfield and when arrested was on his way to Woodstock where a farmer had offered him \$2 a day.

"I don't believe it," was Robert's reply when the charge was read to him. The magistrate, however, thought otherwise, and he imposed a fine of \$5 and costs and in default thirty days in jail.

Robert will take the days.

A threshing engine blew up at Altoona, Man., throwing Jacob Hirsch a blacksmith, thirty yards, breaking his leg and severely burning his son, Albert.

## SCHOOLS OPEN

NEXT TUESDAY

Prospects Bright for Successful Year at the Collegiate Institute.

With the holidays drawing to a close this week the thoughts of parents and children turn again to school and the preparations necessary for school work. School mates and books are brought forth and examined to see whether they are fit for use again or new ones must be purchased. For most children return to school means a step onward, new classes, new or more difficult studies and in many cases new teachers. As to subjects of study for public school pupils there is no difficulty in deciding what shall be taken up since the courses are fixed and obligatory for all, and properly so. However, when pupils have passed the high school entrance examination and leave the public school to enter upon a high school course, there is some option allowed the student in his subjects of study. It is recognized in a secondary school course that, while there are certain subjects, such as English and mathematics, that all students should take, there are others which should be required only for those entering upon special courses of study to fit them for special vocations. High schools are, therefore, expected to provide a wide range of subjects to meet the wants of the special student as well as those of the pupil desiring simply a good general education.

It is the high schools and collegiate institutes principally that prepare young men and women for the teaching profession. In order to secure efficient teachers for the public schools it is necessary to maintain good high schools and collegiate institutes. There are many students in these schools who do not wish to teach, but wish to prepare for business, the professions of law, medicine, engineering, mining or industrial pursuits. To meet all these demands, commodious buildings with ample scientific apparatus and other equipment and efficient teachers are necessary.

In this age of the world no community can afford to neglect efficient schools, and in this respect the town of Ingersoll has always been alive to the importance of education and has made educational progress from time to time. It was one of the first towns in Ontario to introduce the kindergarten system. Two years ago the board of education, after investigation of the new subjects of manual training and domestic science decided that they were worthy of introduction and in line with the most advanced ideas in education.

In regard to accommodation for public school pupils the town is fairly well provided, although it is probable that on account of the increased attendance it will soon be necessary to erect another building in Ward No. 1.

As to secondary education we have excellent provision in the collegiate institute. Remodeled and enlarged a few years ago, it has since been fitted first-class in accommodation and equipment by the high school inspectors. The staff of teachers numbers six men, all specialists in their departments, experienced and successful in their work.

Among the departments of instruction, special mention should be made of the work in manual training and domestic science in the two lowest forms of the school. For students desiring a business course there is special and ample provision made to teach writing, book-keeping, stenography and typewriting.

The past year has been the best in the history of the school in respect of attendance and general character of the work. The attendance of town pupils has increased, while there have been steady gains for several years from Oxford county and adjacent counties. The prospects for the coming year are excellent. The institute will reopen on Tuesday, September 4th. It is important that pupils, and in particular, new students, be present on the opening day.

CHICAGO GREAT WESTERN RY.

Improved service, Chicago to St. Paul, Minnesota, Des Moines, St. Joseph and Kansas City. The Maple Leaf has again reduced the time of its trains and offers to the public three fast trains daily. The equipment and service are a revelation to people who have never taken this route. Let W. A. Dolan, D. P. A., 308 Old South Building, Boston, Mass., tell you all about it.

## LITTLE LOCALS.

Mrs. G. H. Clark and daughter Eva are visiting friends in Buffalo.

For automobile trips after six o'clock p.m., call Geo. Barrons.

Miss Alva Manning is holidaying in Brantford, Oakville and Toronto.

Miss Margaret Smith of St. Thomas spent Sunday with Mrs. J. H. Hegler.

For the best and cheapest school shoes for boys and girls try Cornell &amp; Co.

Mr. Geo. Gregg of Clifford is visiting his brothers, Messrs. S. and H. Gregg.

Mr. Charles H. Burkholder of the Chicago Art Institute is visiting with his cousin, A. W. Taylor.

Grand concert in town hall. Some of the best talent has been engaged, Labor Day, Monday, Sept. 3rd.

The Gun Club will hold a shoot on Monday afternoon at two o'clock. All members are requested to be present.

George Graham of Toronto, catcher for last year's Ingersoll baseball team, is renewing acquaintances in town.

The races and athletic sports at Victoria park promise to be the best yet. Monday, Sept. 3rd, Labor Day.

Dr. and Mrs. Hunter of Toronto are spending a couple of weeks in town with their daughter Mrs. (Rev.) E. K. Marshall.

The baseball match, Labor Day, at Victoria Park, will be the best of the season. Both teams are out to win the prize, Woodstock vs. Ingersoll.

The C. P. R. locomotive which figured in the wreck at St. Thomas on Friday last was in the local yard for some time yesterday afternoon. It was being taken to the shops at Toronto Junction for repairs.

The case in which Geo. Walker is charged with having pointed a loaded revolver at Edward Pingleton was taken up at 2 o'clock this afternoon before Magistrate Morrison. The prosecution not being ready on adjournment for a week was made.

## DEATH OF DR. CODY

FORMER OXFORD MAN PASSED AWAY AT TORONTO.

Toronto, Aug. 28.—The death of W. T. Cody of Detroit, brother of W. H. Cody, of Swagboro, W. Oxford, and a son of the late Franklin Cody of West Oxford, occurred in the general hospital here this morning. Dr. Cody, who had been a practicing physician in Detroit for some thirteen years, and had been on a trip to Cuba, and was on his return journey when he was taken ill some two weeks ago. Deceased was attended by his sister, Mrs. Farrer of Paris, his brother, Mr. C. C. Cody of Toronto, his son Walter, and Mrs. (Dr.) Rice of New Dundee, at the time of his death. He leaves one son, five brothers and two sisters to mourn his death, his wife having passed away some twelve years ago. They are J. B. Cody, Garryville, La.; Mrs. A. S. Farrer, Paris, Ont.; A. E. Cody, West Oxford, C. C. Cody, Toronto, W. H. Cody, Swagboro, E. G. Cody, Brandon, Man.; Mrs. W. A. Scott, Grand Rapids, Mich.

The funeral will take place at the G. T. R. depot, at London, on the arrival of the 11 o'clock a.m. train from Toronto, on Wednesday, Aug. 29th, when the remains will be taken to the Woodlawn cemetery for interment.

Deceased was 58 years of age at the time of his death, and was one of Detroit's best known physicians.

## THE BEST IN SPICES and VINEGAR

## Golden Syrup Pickling

A high-grade wholesome pickling vinegar at a reasonable price, 50c per gal.

## X X X White Wine

40c per gal.

## Pure Cider Vinegar
