

KIDNEY TROUBLES

Are Overcome By

Dr. Morse's Indian Root Pills

The kidneys have a very important work to perform in preserving health. All the blood passes through them over and over again and they filter it, removing all the impurities and worn-out muscle and tissue which the blood gathers up, in microscopic particles, in its flow through the body. These impurities are then expelled through the urinary system.

When the kidneys for any reason fail to perform this function, and the impurities are left in the blood, about the most distressing series of ailments which afflict mankind follows. First there is the aching back and a feeling of weariness, and then, as conditions grow worse, comes Rheumatism, Gravel, Diabetes, Gall Stones, Inflammation of the Bladder or the dreaded Bright's Disease.

The man or woman who allows kidney trouble to develop into any of these diseases is doing himself or herself a grave injustice, particularly when a cure can be had so readily. One of the constituents of Dr. Morse's Indian Root Pills is a Diuretic, enabling them to do their work thoroughly and with ease. These Pills also increase the action of the bowels and the pores of the skin, which remove some of the impurities, thus lightening the work of the kidneys.

Mr. Geo. Whitney, of Buffalo, N.Y., says they worked wonders for him. He writes: "Your Doctor Morse's Indian Root Pills have worked wonders in my case. I suffered for six years from liver trouble and kidney ailment. If I tried one medicine I tried a dozen, but without good results. Your pills were recommended and they cured me after using four boxes."

Dr. Morse's Indian Root Pills should be taken at the first sign of back-ache, of rheumatism, or of any difficulty in urinating.

YOUTH MEETS AWFUL DEATH

MONCTON, N.B., Feb. 17.—Struck by the end of a passenger car being pushed along by a shunting engine and dragged one hundred feet William Doyle, aged seventeen, employed in the office of Mr. A. B. McDonald, general car foreman, was killed yesterday noon. As the unfortunate lad emerged from freight car repair shop he was struck by the end of a passenger car and apparently did not notice its approach. He was thrown underneath the car, his head landing on the rail, was pushed along for a distance of one hundred feet or more by the wheel of the car. When picked up it was found that young Doyle had been ushered into eternity.

HIS FRIENDS FORSAKE HIM

WASHINGTON, Feb. 17.—Members of the House of Representatives today in general before voting him a gold medal and the thanks of Congress. It was learned to-day that the naval committee was not entirely unanimous on the proposed bestowal of honors upon the discoverer of the Pole.

RAISULI IS REPORTED TO BE POISON VICTIM

Hold Prominent Men for Ransom While Chief of Bandits—Governor of Province.

TANGIER, Morocco, Feb. 17.—It is reported here that Raisuli, governor of Djibouti province and former Moorish bandit chief, is dead as the result of being poisoned.

While at the head of a band of brigands he captured Dr. Walter E. Harris, a London newspaper correspondent.

Two years later Raisuli seized Ion Perdicaris, a native of Trenton, N.J., which was the occasion of the dispatch of a United States squadron to the Moroccan coast and the ultimatum from the State Department: "Perdicaris alive or Raisuli dead."

Raisuli's next exploit was to capture an Englishman, Reid Sir Harry Maclean, adviser of the Sultan. Maclean was held for seven months and was released on the promise of a payment of \$100,000. Raisuli was appointed governor of the province of Djibouti a year ago, and at that time he promised to renounce the ransom paid on behalf of Maclean.

The Council of the Board of Trade met yesterday morning and passed two important resolutions. One urging the St. John Valley Railway Company to arrange for an agreement between the Dominion and provincial governments in order that they may definitely state what they are prepared to do toward aiding in the building of the railway. The other resolution placed this council on record as being opposed to the sale of the West Side docks to the C. P. R.

The death occurred at his home in Union alley yesterday of Mr. Philip Lusk. He was in the 68th year of his age. Deceased was well known about St. John, having served as chef in several city hotels. Of late years he conducted a restaurant at Mill street until failing health forced him to give it up. He is survived by his wife, five sons, and two daughters. The sons are: Philip, Frank, Ernest, and Robert at home, and Arthur in Boston; and the daughters, Mrs. John Sneed and Mrs. Wm. McAlister, both of this city. Funeral will be held on Sunday afternoon at 2:30 o'clock.

J. H. Tees, an Englishman who had been working on a farm near Welsford, was struck by the west bound Boston express while walking on the C. P. R. tracks near Welsford yesterday morning. He was severely injured but was able to proceed on his way to Amherst, N. S., where he will locate.

The University Women's Club of St. John met at the residence of J. William Smith yesterday afternoon. During the year Browning, and questions of sociology have been the subject of study. The programme yesterday was under the direction of Mrs. Oscar Gronlund, who was assisted by Mrs. McKaughan and Dr. Margaret Paris, the subject being, "The Ring and the Book." The same study will be continued at the next meeting, which will be under the leadership of Miss Annie Whitaker and will be held at the residence of Dr. N. A. Collier.

- **Fraternal Prescription**
- **For Nervous Wrecks.**
- (From "Medical Reports.")
- Thousands of men, nervous wrecks, have found the following:
- "Fraternal prescription" a blessing and a boon. Such men lack aggressiveness, they are timid, nervous, easily discouraged, lacking in self esteem and confidence. They suffer from cold extremities, thin watery blood, nervousness, sleeplessness, frightful dreams, trembling hands and limbs, unsteady gait and an absolute inability to perform the ordinary natural and rational acts or duties such as any healthy normal man can.
- A vigorous man works, plays, eats and sleeps always with the keenest enjoyment. The greater his exertions are, the stronger becomes his appetite and slumbers. The nervous man seems always tired and worn out. Battering brings no relief. Sleep brings no refreshment, all because of an abnormal condition of the nervous system, brought about by—well, no matter what—the desire is for relief and freedom with rich, red, blood surging through the body.
- supplying the sensitive nerves with all the power of sensation, so that sleep is refreshing, food is delicious, work is play, and play is pleasant.
- This treatment is thorough, simple and correct. The ingredients are used in filling various prescriptions and can be obtained of any well stocked drugist and mixed at home without embarrassment or questions.
- Obtain three ounces of syrup sarsaparilla compound in a six ounce bottle. To this add one ounce of compound fluid balm—work and let stand two hours.
- Then add one ounce of tincture cadomene compound (not cadomene and one ounce of compound essence, cardiol, mix, shake well and take a teaspoonful after each meal and one when retiring until a vigorous, bounding, new-health takes hold of the tired, exhausted nerves. Only a few weeks' treatment will astonish, and rejuvenate, because the treatment is the right thing, at the right time, and contains no deceptive opiates.
- The "Made in St. John" committee of the advertising branch of the Board of Trade met last evening at the Board rooms and discussed quite fully the details of a campaign for the exportation of St. John-made wares at the approaching Dominion exhibition.

RUSSIAN REFUSED TO RECEIVE WIFE

Asked Immigration Officials to Exclude Her—Three Children in the Family.

NEW YORK, N. Y., Feb. 16.—Wolf Jolon of Boston notified the immigration authorities today that he does not wish to accompany his wife, and asked them to exclude her. Mrs. Jolon arrived here on the steamer Hamburg on January 29 with her three small children and they are still on Ellis Island.

She declared herself as a widow with practically no money, and was ordered excluded as liable to become a public charge.

She appealed her case and later acknowledged that her husband lived in Boston as a single man.

The authorities began an investigation and discovered Jolon. He refused to come for his family, but said he would remit for the support of his children when they had returned to Russia.

As Mrs. Jolon had appealed to Washington, the papers in the case have been sent there and a decision is expected in a few days.

ELECTING SPEAKER IS A QUAINT CEREMONY

How the New British House of Commons Chooses a Presiding Officer

LONDON, Feb. 18.—Whether it is decided to deal first with the House of Lords or with the Budget, the new House of Commons, must do one thing before it deals with anything else. It must elect the Speaker. Until there is a Speaker, duly elected, in the chair, nobody has the right to call upon anybody else to propose anything.

The ceremony of election is quaint. The Clerk of the House raises and points in solemn silence to some person of weight and eminence, who rises and proposes the name of the man upon whom both parties have previously agreed. The Clerk then points to another member, who seconds the nomination. The House then unanimously calls the chosen man to the chair.

Wearing court dress and a bob wig, the Speaker then rises and acknowledges the honours bestowed upon him, and then expresses his thanks, and then retires to assume the full bottomed wig and the robes of the fully elected Speaker.

His first duty is to go to the House of Lords and inform the Lord Chancellor of his election and ask for the King's approbation. That being obtained, he solemnly claims "all the ancient and undoubted rights of the Commons," and in particular that they may at all times have access to the King whenever occasion may require. That "all their proceedings may receive the most favorable construction." This procedure has obtained since the reign of Henry VIII.

PRIVATE INQUIRY HELD YESTERDAY

The private inquiry into the grounding of the government steamer Lansdowne at Publico on January 24 was held in the Customs House yesterday afternoon, Capt. Luger of the Marine Department, conducting the investigation. Capt. Burn and the other officers, the engineer, the quartermaster, one of the boatswains, the men who were on lookout at the time of the accident were examined. The evidence will be forwarded to Ottawa. Capt. Luger will remain in St. John awaiting orders. He expects to conduct an inquiry into the grounding of the steamer Centerville, which occurred at Trout Cove, N. S. It is not known whether the investigation will be held here or in Digby.

A big bowl of Quaker Oats is the best dish you can serve.

Delicious and nourishing Good for all ages and all conditions. Economical and strengthening

SERIOUS BLAZE ON THE SOUTH WHARF

Permisses of J. Johnston & Co. Badly Gutted.

A serious fire broke out about 12:30 o'clock this morning in the building occupied by J. Johnston & Co., ship chandlery, 2-3 South wharf. Fortunately, however, the blaze was discovered in time by Policeman Clark, who sent in an alarm from box 7. When the fire department arrived on the scene the fire looked like a very serious one, as clouds of dense smoke were issuing from all parts of the building. The firemen got quickly to work and soon had the blaze under control, but not before the building was quite badly gutted, and considerable loss sustained. The fire had apparently been smouldering for some time. The cause of the fire, which originated from an ash barrel in the rear of the building in which were hot ashes. It was about an hour from the time the alarm was sent in before the blaze was completely extinguished.

The building, which is owned by Mrs. H. W. Wilson, was damaged to the extent of about \$500. H. B. Schofield is agent for the building.

Mrs. Mary McLaughlin, proprietress of the "Do drop in" restaurant, extended her hospitality to the fire fighters by inviting them over to her restaurant to have a drink of hot coffee. For this the firemen are indebted to Mrs. McLaughlin.

Watching A Stomach Digest Food

Was the Means Whereby Science Made Possible the Cure of Dyspepsia

A TRIAL PACKAGE OF STUART'S DYSPEPSIA TABLETS SENT FREE.

The Abbe Spallanzani was the first scientist to study systematically the chemical powers of the gastric juice, but it was by the careful and convincing experiments of Beaumont that the foundation of our exact knowledge of its composition and action was laid. Beaumont was an army surgeon, located at an obscure military post in Michigan, while it was yet a territory, and was called upon to treat a gun shot wound of the stomach in a Canadian voyageur—Alexis St. Martin. When the wound healed a permanent opening was left by means of which food could be placed in the stomach and gastric juice taken from it.

Beaumont made scientific experiments with his crude means and wrote a book, which to-day is recognized among the "classics" of physiology. Beaumont used the way for other scientists to that to-day medicine knows what the stomach does with food and what food does to the stomach.

Science also knows what the gastric juices are and how to make them best for the stomach.

Stuart's Dyspepsia Tablets, thanks to the poor army surgeon and Alexis St. Martin, have made a man of digestion, republishing the exhausted juices, soothing the nerves and correcting dyspepsia, the scourge of the stomach.

Stuart's Dyspepsia Tablets are natural fruit and vegetable essences refined in concentrated form by the tremendous power compressed into a tablet. These wonderful little digestors of food are made of pure vegetable matter. Full meals have been digested by them in glass tubes and they are sold everywhere. They are meritorious and powerful. Go to your drugist, and buy a package to-day, price 50c. or send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

INFANT PROBABLY FATALLY SCALDED

Distressing Accident in the Home of George Scott.

A distressing accident occurred yesterday in the home of George Scott, Elm street, a Royal Hotel waiter. His infant child, only eleven months old, was terribly scalded, as its recovery was hardly hoped for, although Dr. J. C. Mott, who attended it, said last evening that he had hopes its life might be preserved, as the child is of strong constitution.

The baby had just learned to toddle, and almost its first trip of any length ended in its being perhaps fatally injured. Mrs. Scott had left it in a room adjoining the kitchen, never suspecting from its former activities that it could reach danger. While she was in another part of the house, however, the child travelled into the kitchen and clutched a pan of boiling water which had been left standing on a chair, just within its reach. Hanging to the pan, the child pulled it over, and the scalding liquid was thrown over the youngster's body, scalding it about the clearest in a pitiable manner.

SAD SEA TALE

GLOUCESTER, Mass., Feb. 17.—It was a wonderful identification which Frank Crowley of Boston this evening made of the two-masted schooner Geo. Prescott, which, bound from Calais for Boston, capsized in Friday's storm. To Crowley it meant the certainty of the loss of his father, Captain Crowley of Jonesport, Maine, and probably of his brother, Martin L. Crowley. These should be added three other members of the Prescott's crew.

Attention is called to the Canadian Club Luncheon which takes place in Kitchin's Assembly Hall this evening at 8:15. Hon. J. Wilfrid Longley, Judge of the Supreme Court of Nova Scotia, will speak on "The National Problem," and his knowledge of public questions and reputation as a speaker should ensure a large attendance.

ORDER IS IN FINE SHAPE

Victorian Nurses Made 3,623 Visits During the Past Year.

The annual meeting of the St. John branch of the Victorian Order of Nurses was held at 4 p. m. yesterday in the school room of Trinity Church. The report of the board of management and of the secretary treasurer were presented and showed that during 1909 the order in St. John had made marked progress.

In the absence of Judge Forbes the president, the chair was occupied by Judge Ritchie. Those present were Mrs. D. McLaughlin, Mrs. Robt. Thomson, Mrs. W. H. Tuck, Mrs. James Forbes, Mrs. Thos. Walker, Miss McLaren, Dr. Thos. Walker, Dr. J. S. Bentley, F. B. Francis, Miss McPherson, Miss W. Sparkhall and Miss Rogers.

The report of the board of management stated that the year had been most successful. The following details of the work were given:

Visits during the year	3,623
Number of new cases	57
Medical cases	57
Surgical cases	57
Gynecological cases	28
Obstetric cases	93
Chronic cases	25
Number of paying patients	189
Non-paying patients	161
Total number night visits	87
Total number of operations	62

The report stated that the falling off in the total number of visits amounting to 381, indicated that there had been less sickness among the poor than in 1908, which had been a heavy year. In 1909, however, the number of night visits had increased from 29 to 87. The collections from patients had been \$124.50 in 1908 and \$20.30 in 1909. The subscriptions had been \$163 in 1908 and \$221 in 1909.

Miss McPherson, head nurse, in connection with the decrease in the total number of visits explained that it had been caused by a change in the method of accounting.

The following members were elected to the board of management: Judge Ritchie, Mrs. D. McLaughlin, Mrs. Robt. Thomson, Mrs. W. H. Tuck, Mrs. James Forbes, Mrs. Thos. Walker, Dr. J. S. Bentley, F. B. Francis, Mayor Bullock, Mrs. G. F. Smith, Mrs. J. V. Ellis.

The board of management has offered the services of their nurses to assist in visiting in connection with the work of the Society for the Prevention of Tuberculosis.

INTERCOLONIAL RAILWAY

Sealed tenders addressed to the undersigned and marked on the outside "Tender—Railway, Nelson to Chatham" will be received up to and including Tuesday, March 15th, 1910, for the construction of a line of railway between Nelson and Chatham, N. B., a distance of 823 miles.

Plans and specifications may be seen at the Station Master's office, Chatham, N. B., and at the Chief Engineer's office, Moncton, N. B., where forms of tender may be obtained.

All the conditions of the specifications must be complied with.

Synopsis of Canadian Northwest Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 20 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price 32c per acre. Duties—Must reside six months in each of six years from date of homestead claim (including the time required to earn homestead patent) and cultivate 20 acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption, may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$200.00.
