pushed the door siar to find out what was going on. His gun lay where it had fallen. Beyond the gun, among a bed of dry leaves was a moving, sputtering some-thing, as big as a molasses hogshead, but of a shape such as no man ever saw. The panther had pushed its four legs through the sleeves of the coat until the body of the garment bad come up against his the garment bad come up against his breast. When the gummy surface of the cost had come in contact with the hair of the panther the two became one. After that the frantic animal had floundered about and coated its body and legs with dry leaves until it was helpless to fight or run sway. Though the conduct of the missionary afforded no pre-edent for the act, young Snow took advantage of the situation and placing the muzzle of his gun at the panther's ear hored a hole in its skull and fill-dis brains with bird shot. A few days ater, the fisherman who owned the coat acter, the fisherman who owned the coat acter, the fisherman who owned the coat net the boy on his way to school and gave bim a hearty whipping for meddling with property that was not his own.

A CININE PATRICK HENRY.

in Episode Which Illustrates that Dogs can

'Every time I see this pond,' said the lder of the two sportsmen, I think of omething that happened here a good hile ago-something that convinced me ogs can talk.'

The two men were sitting on the veranda f a little country hotel in New Jersey, ver looking a small lake. Both are wideknown among lovers of dog and gun, ne older man especially, being regarded s the most expert trainer of hunting

ogs in the state. ·Beside the fitteen or twenty bird dogs my kennels at the time,' the elder man esumed, 'I had a big mongrel—a cross etween a St. Bernard and a mastiff. He ad a bad disposition, and unless I watchd him was constantly bullying the other ogs. No one of them was a match for m in a fight, and he knew it and terrored them.

'I generally took some of the dogs down ere to the lake for a swim every day. ne morning I brought a young Irish setr and the big mongrel. The setter had ardly entered the water when the monel followed him. He seized the setter the neck, and in spite of his struggles ld him under water. All my shouting dn't the slightest effect on him, and finy I had to leap in myself and pull the ongrel off, to save the setter's life.

During the day all the dogs were ained up After supper, when I let em out for their usual evening run, I ticed that the setter took no part in the mbols of the other dogs. He ran first one and then to another until he had ited more than half the pack.

Each dog that he approached stopped play and went around growling, and h his tail erect and stiff. Then, all at ce, as it some one had given a signal, ery one of them started for the mongrel began the worst fight I ever saw.

Not one made any mistake. Not one any other dog except the mongrel; but they would literally have torn to ces if I hadn't rushed in with my heavy p and driven them off As it was, the ngrel was a mass of cuts and tears, and s of skin were hanging in a dozan ces. I saved his life, but he was never ad for anything atterward. If the allest cur came up to him and growled would put his tail between his legs and

would put his tail between his legs and k away.
What that Irish setter said to the other is in the pack I don't know. Nobody the Creator of dogs could tell that, that he said something, and that the er dogs understood him, I never had slightest doubt. It must have been a cot Patrick Henry oration—an appeal ght it out and throw off the yoke of oppression. At any rate, it was filed. oppression. At any rate, it was effec
