

CORRESPONDENTS' CORNER

HARTLAND

Hartland, N. B., July 13.—The extraordinary rise of water in the Beca-guine stream and the St. John river has obliged the Sayre mill and that of Price & Nevers to close down for a few days.

The cut of lumber by the F. E. Sayre people last winter was so great that Manager Campbell is considering the advisability of running the mill with day and night shifts in order to clean up its manufacture before the winter sets in. This will give employment to the Price & Nevers crew, who finish their sawing early in the season.

William Grenier and John Hudson, of Grand Falls, have gone to join the 55th Battalion, and several more from that place are expected to join the colors before the battalion leaves for Valcartier.

The leading industry and perhaps the mainstay of Grand Falls town is James Burgess & Sons, Ltd. The cut at this mill this season is fully as large as last, and to complete it night and day crews are constantly employed, the number at present at work being about 150 men.

Dr. MacIntosh, who is now in England with the Royal Army Medical Corps, has written a very interesting account of the White Star line mechanic's trip over. It is almost in the nature of a diary and was sent to Mr. F. N. Stevens here. They reached Plymouth on a Sunday afternoon well pleased with having escaped the vigilance of enemy submarines, although thoroughly prepared in case any have in sight to "put their eye out" before they could do any damage. Among the troops aboard were "Boyle's Horse" from Dawson, who, he describes, as a most remarkable body of men, both in physique and condition.

On Sunday, July 3, the villages of Perth and Andover were thronged with people from all over the county who came to attend the funeral of Miss Geneva Johnson, whose tragic death occurred on the Friday evening previous. Rev. J. R. Hopkins, rector of Trinity church at Andover, of which the young lady was a member, conducted the funeral services, which were very impressive. Her associates in the Wade Drug Co. here, the funeral was followed by hundreds of sorrowful citizens.

Patrick Heffernan, the companion of Miss Johnson in the recent fatal accident at Andover, is slowly recovering from the effects, both of the accident and the nervous shock resulting from the death of his fair companion. It is expected he will be around in a few days.

The electrical storm last Wednesday night did considerable damage in the northern part of the province. Considerable damage was done to the Roman Catholic church at Plaster Rock by an electric bolt, and two barns belonging to Sylvanus Knowlton, at Dow Flat on the Tobique river, were entirely destroyed by fire. At Upper Knoxford on Tuesday last there was an interesting matrimonial event at the home of Mr. and Mrs. G. F. Bishop, when their daughter, Florence, became the bride of Mr. "Tremaine" Longstaff. Rev. J. R. Hopkins of Trinity church, Andover, performed the ceremony, the young couple being unattended.

Mr. and Mrs. Reeves and little daughter, of Andover have started on the long journey to South Africa, where Mr. Reeves formerly held a responsible position. They have been residing in Andover for the last five years and had made many close friendships.

On Sunday, after a lingering illness of tuberculosis, the death took place of Mr. Harvey Goodwin, at the age of 53 years. Besides his wife, the deceased leaves four sons and two daughters to mourn the loss of a good husband and father. One of the sons, Frank, is in the service of his country on home duty, being one of the corps which is looking after the detention camp at Ambrose. He was home on furlough when his father died. The funeral was held on Tuesday from his late home on Burt's Hill, the remains being escorted to the grave by a large number of former friends. The services were conducted by Rev. Geo. Kincaid.

PRICES AT HAVANA

Havana circular of July 9th reports: As the market is exhausted of haddock and an active enquiry prevails, good prices can be expected. There are rather heavy stocks of hake and codfish drums with the same moderate demand in evidence. The lack of activity in the demand for Norwegian codfish in cases did not allow prices to advance. In spite of holder's efforts to sustain their quotation, and we, consequently, can only quote the variety just alluded to at \$11.50 per case. Although stocks of other sources of codfish are small, holders have lowered their prices in order to effect sales and we quote at \$8 to \$9 per case. The few remaining lots of bladders are being sold at \$1.50 per large box. The demand for potatoes has been active for the week and, while the price for barrels has fallen off, bags advanced. We quote at \$2.50 per barrel of old crop and \$3.00 of new crop, and 1½ cents per pound for bags.

GIANTS RELEASE CATCHER SMITH
New York, July 14.—Harry Smith, catcher for the New York Nationals, was given his unconditional release today. Smith balked when the Giant management attempted to send him to the Rochester team of the International League and asked for his release, which was granted. He came here last season from Savannah of the South Atlantic League.

FORMAL OPENING OF NEW AGRICULTURAL SCHOOL AT SUSSEX

Ceremony this evening
—One of best equipped institutions of the kind in Canada.

Sussex, N. B., July 14.—The Rural Science School for teachers opened at Sussex this morning in the new Agricultural School building, with a capacity attendance. The staff who will have charge during the term are: R. P. Steeves, M.A., director and instructor in method; H. H. Hagerman, M.A., instructor in soil physics and chemistry; Prof. H. G. Perry, animal life; Dr. J. B. Bandena, nature study and school gardening; Director P. Peacock, farm mechanics, bookkeeping and drawing; Miss Jean Peacock, rural domestic science. A number of applicants desiring to attend this course could not be accommodated as the equipment only provides for 150 scholars.

The formal opening of the new Agricultural School will take place on Thursday evening, the 15th inst. Sussex has without doubt the best equipped agricultural school in the Maritime Provinces and is in equipment to any in Canada, and the New Brunswick government, contractor Walter Lutz, and those responsible for the equipment of the building are all open to congratulations on the success of their efforts. The new building is three stories, with a basement, and is constructed of brick and cut stone with a concrete foundation.

Besides being provided with every requisite for imparting agricultural education, it has the advantage of delightful surroundings, and well ventilated and handsomely appointed classrooms. Every care has been taken to fit the building for the purpose of which it is intended, and the opening of the structure will undoubtedly have a marked effect on the future of agriculture in the province. In the large and well-lighted basement are located the steam heating apparatus, gymnasium, and the building for the purpose of which it is intended, and the opening of the structure will undoubtedly have a marked effect on the future of agriculture in the province.

On the first floor is situated offices and the big assembly hall. The latter is 40x50 feet and is a handsome apartment. This room is furnished with a large seating capacity, is finished like the rest of the building, in cypress and mahogany, and is well lighted and splendidly adapted for meeting purposes. The general lectures will be delivered by experts.

On the second floor are the large class rooms to be devoted to soils, chemistry and physics and biology. The laboratory for soils, chemistry and physics is 28x36 feet. It is furnished with all the latest and most up-to-date apparatus and chemicals necessary to give thorough instruction in the three subjects. This room is furnished with sinks, tables, etc., and has a preparatory room in which the teachers can prepare their work.

In the biological room every care has been taken to provide one of the most up-to-date departments procurable. Sinks, work tables, etc., have been installed, and the microscopic equipment is sufficient to enable large classes to work intelligently and satisfactorily. Like the laboratory, the biological department has its preparation room for the use of the staff.

The formal opening promises to be an event of unusual interest and many prominent men are expected to be present. The following is the programme: Selection—Empire Ladies' Orchestra. Chairman's Address—Hon. J. A. Murray. Address and Declaration of Opening—His Honor Lieut. Governor Wood. Selection—Empire Ladies' Orchestra. Address—Hon. Geo. J. Clarke, Premier. Address—Prof. M. Cumming, B.S.A. Address—Geo. W. Fowler, K.C., M.P. Selection—Empire Ladies' Orchestra. Address—W. S. Carter, LL.D., Chief Superintendent of Education. Address—R. P. Steeves, M.A., Director. Elementary Agricultural Education. Selection—Empire Ladies' Orchestra. Addresses—Members New Brunswick Government. Address—C. C. Jones, LL.D., Chancellor of University of New Brunswick. Address—Robt. Newton, B.S.A., Principal Agricultural Schools. Address—H. V. Bridges, LL.D., Principal Normal School. God Save the King.

NEWCASTLE

Newcastle, July 14.—Newcastle Women's Institute held its regular monthly meeting (second Tuesday) last night in the police court room. Much important business was transacted. The institute has got fairly to work and two new members joined. Mrs. John Russell read a paper on household efficiency.

HILLSBOROUGH

Hillsborough, July 14.—Miss Annie Bray returned this week to her home in St. John.

Mrs. Abner Rose is visiting friends in Dover.

Mrs. Dernier has returned to her home in Dover, after spending some time here, guest of her parents, Mr. and Mrs. Geo. A. Steeves.

Thad Steeves of the 55th Battalion, Sussex, and wife, were guests of friends in town last week.

The recital given by Miss Jean Archibald, for Red Cross benefit, on Monday evening last, was very greatly enjoyed by the large number present.

Mr. William Irving, Rhodes scholar, at Oxford College, England, was the guest of friends in town last week.

Miss Emma Wallace has returned from Amherst.

Miss Gerda Robinson spent the week end with friends at Albert Mines.

Mrs. G. H. Bain and little son Jack are guests of Mrs. Bain's parents, Mr. and Mrs. W. B. Dickson at Moncton.

Mrs. B. J. Dash and Mrs. Walter Slater were in Fredericton this week.

Miss Mildred McLaughlin, Ottawa, is the guest of her mother, Mrs. E. McLaughlin.

Mrs. Ida Gossage and Miss Muriel Baldwin, returned this week to their home in Bangor, Me.

Miss Kathleen McLatchy, Moncton, was in town this week, guest of Mrs. Dash.

Mr. Clyde J. Steeves of Campbellton was in town this week.

Mrs. H. Hayward, Ottawa, is the guest of her sister, Mrs. E. M. Sherwood.

The annual Sunday school picnic of the First Baptist and Valley Baptist churches, together with the Salem, Weldon, Albert Mines and Hopewell Cape schools, will be held at "The Rocks" on Tuesday next, July 20. A good time is anticipated.

The Hillsboro Tennis Club had their weekly tea on the court, on Tuesday last. Misses Kathleen Steeves, Katherine Thompson and Edith Gross served. A large number were present.

Mr. H. V. MacKinnon, manager of the Standard Ld., St. John, was in town on Saturday last.

In addition to the donations of hospital supplies mentioned elsewhere the Knights have received a package of a dozen bandages from Mrs. G. Orty, Gagetown, and six dozen pneumonia jackets from the local Red Cross Society.

Patriotic Fund.
C. B. Allan, treasurer of the Patriotic Fund, is in receipt of \$8 from the crew of the Canadian government steamer Aberdeen, their eleventh monthly contribution.

French National Holiday.
In honor of the French national holiday many people in St. John displayed the flag of the republic yesterday.

How Thin People Can Get Fat
Increase in Weight Ten Pounds or More.

A PHYSICIAN'S ADVICE.
"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as was when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste matter.

To correct this condition and to produce a healthy normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving, fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood and its rapid effect is remarkable.

Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by good druggists everywhere and every package contains a guarantee of weight increase or money back.

Caution:—While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh producing effect, be used by those who are not willing to increase their weight ten pounds or more.

THREE WHITE MEN SHOT DOWN BY A NEGRO

Murderer, a farmhand, kills Overseer who struck him and two men who went to arrest him.

Macon, Georgia, July 14.—Three white men are dead today at Cochran, Ga., in Pulaski, and a posse estimated to number several hundred farmers heavily armed has surrounded the home of a negro farmhand who is alleged to have shot and killed the three men. The negro has barricaded himself in his home.

James Jackson, the negro, at last reports had succeeded in holding off the posse.

The dead are: W. S. Hogg, aged 60, night marshal; Lynn Sanders, 40, farm supervisor; and Oscar Lawson, 23, a farm hand.

According to reports, was criticized by Sanders late yesterday for some work he had done, and the supervisor is said to have struck the negro. Later, it is alleged, Jackson accosted Sanders, drew a pistol and fired twice, one bullet entering Sanders' heart, killing him instantly.

Early today Hogg and Lawson went to Jackson's home to arrest him, when, it is alleged, the negro fired upon them with a shotgun. They died shortly afterwards.

Note Your Increase In Weight

By making the blood rich and red Dr. Chase's Nerve Food forms new cells and tissues and nourishes the starved nerves back to health and vigor.

By noting your increase in weight while taking Dr. Chase's Nerve Food, you can prove positively the benefit being derived from this great food cure.
