

CANADIAN SHIPPERS EXPECT SERIOUS RESULT FROM FREIGHT EMBARGO ORDERED BY U. S.

Bad Weather Conditions in States Giving as Reason for Placing Embargo on Freight Moving East from Canada to United States.

Montreal, Que., Jan. 21.—(By Canadian Press.)—Serious results for Canadian shippers, both exporters and importers, are foreshadowed by the announcement of an embargo on all freight moving east from Canada to the United States by way of the Niagara frontier. The embargo has been placed by the United States Railroad Administration. Bad weather conditions in the United States are given for the reason of the embargo.

Attention of Canadian shippers is being called to this important embargo by the Railway Association of Canada (Railway War Board). It will affect not only Canadian goods moving into the Eastern United States, either for shipment to Europe or for United States consumption, but it will close off the eastern movement of United States goods which usually cross Canada from Detroit to the Niagara frontier. It is suggested that Canadian importers may also be affected by the possible delay of supplies coming from the United States by way of Niagara.

The Railway Association points out that the same congestion which compels the United States to place this embargo is obviously likely to have a corresponding effect on the import movement into Canada through the Niagara frontier.

The announcement of this embargo might, also, embarrass Canadian lines which have already accepted cars des-

LEGAL BATTLE TO SAVE LIVES OF MURDERERS

Three Men Condemned to Die Friday Morning—Several Appeals Made to Minister of Justice.

Montreal, Jan. 21.—Another effort to save Romeo Lacoste, Murdeck Allen and Lemay, alias Delorme, who are to hang at the Bordeaux jail on Friday, was made this morning by J. W. P. Gagnier, counsel for two of the condemned. Enclosed with the petition that was sent to the Minister of Justice were several affidavits stating that Henri Poirier and Lorenzo Laporte, two other members of the band, who turned King's evidence during the trial, have declared that they gave false evidence in order to save themselves and to escape justice.

It is also alleged that the members of the petit jury, while at the St. Sulpice farm, were allowed to converse freely with anyone they wished. One jurymen is said to have stated that had he known that his verdict would have proclaimed all three "not guilty." Altogether there are six points which the Minister of Justice is asked to consider in their favor.

It is stated that Mardock Allen does not yet know of his fate. He will not be told until Thursday night when Canon Almond will inform him and spend the night in his cell. Reports from the jail say that all the condemned trio are bearing up well and are making numerous cynical remarks about Friday morning.

FORT FRANCES MILL PLAYING WITH DYNAMITE

Mill Running Night and Day, the Output Being Stored—Cars Shipped Monday Have Not Reached Western Papers.

Fort Frances, Ont., Jan. 21.—More desire to negotiate over the news print trouble has been shown by Fort Frances Pulp and Paper Company the last day or two, but they are not seeking a settlement on the basis of the order of the Paper Controller fixing the amount of news print to be supplied by the company during the month of January to the western newspapers. The apparent indifference of the company also, in regard to expediting the arrival in Winnipeg of the cars already shipped from the mill, seems to cast a doubt upon their intentions. Until late this evening the four cars that left the mill in bond, on Monday night, had not traversed the short loop that brings them back to the Canadian side. Another car for Winnipeg was shipped from the mill last night. It has not returned to the Canadian side yet.

The company professes it would be willing to ship now on the basis of the daily requirements of the western papers. The Paper Controller's order, however, calls for the shipping of a specific total for the month. This means making up for the shipments that have not moved forward during the last week. The company is not willing to do that.

The mill is still running night and day and every inch of storage space in the mill is being filled, as well as the empty cars that are brought over from time to time.

CONSTABLE SHOT AT THURLES, IRE.

Disturbance Followed the Shooting, Hand Grenades Being Thrown Into Houses and Shots Fired Through Windows.

Thurles, Ireland, Jan. 21.—(By The Associated Press.)—Another constable was shot and badly wounded last night while returning to his home here. Armed squads later searched the district and entered several houses looking for the assassins of the constable and also held up and questioned pedestrians. No arrests were made.

Several crashes of glass during the evening were followed by volleys from the rifles of the police.

London, Jan. 21.—A despatch from Thurles says the disturbance there arose out of retaliation of the shooting of the constable. In some cases hand grenades were thrown into houses and shots fired through doors and windows.

"The residence of Charles Cullane, president of the Sinn Piu club," says the despatch "was roughly treated." Every pane of glass in the lower part of the house was smashed and the bullets passed through the stair window and smashed mirrors and furniture. Policemen burst in the hall door and searched the house for Cullane, but he had left, declaring that he would be a dead man if he were found.
