Woodstock Boys Return.

Woodstock, Feb. 25.—The Century hockey team of this town returned home Saturday from St. Stephen, where they played a match with the border city boys Friday evening and were beaten 4 to 1. They report having a good time, that the Thistle seven did everything in their power to make the visit an enjoyable one—everything except letting them win. This the St. Stephen boys could not do. Remembering that this is the second scason for hockey in this town, the local boys play a good game but they do not appear to be "in it" with their more seasoned opponents. World's Championships,

Boston, Feb. 25.—H. P. Stoft, of Cleveland, won from Irving Long, of Boston, 150 to 138 in the series for the pool championship of the world tenight in the Hub billiard parlors.

Events Declared Off.

Boston, Feb. 25.—The American Henley-on-the-Thames will not be held this year through lack of premise of financial support.

London, Feb. 26.—The Cairo correspondent of the Daily Telegraph says:

It afforded me great relief from the first application, and ultimately cured me. I know of neighbors who have been benefitted to a similar extent." Mrs. Ed. Callan.

No greater boon has been extended to astmatics than Caterrhozone which is as certain to cure as anything in this world can be certain. Its effects is immediate, and its prolonged use results in a radical cure. Breathe it for ten minutes four times a day, and if it fails to cure we will refund the money. There seems to be no end to the dangers we may unwittingly incur in eating the most simple foods. A well-known medical man has recently discovered that a great deal of trouble in the form of whooping cough may be caused by the little black specks seen on the skins of oranges. They are a species of fungus, and they, and the skin on which they are seen, should be carefully removed from any orange that is given to a child. There seems to be no end to the dangers

EXPERIENCED CORNS AND WARTS

Your unsatisfactory experience with other preparations should not influence you against "Putnam's." It was the first, the best, the only painless corn cure. Give it a trial. A corn treated with other remedies wouldn't do so again if it could help it. Give your corn a chance. St. John's, Nfld., Feb. 21-Steamer Ingraham has returned from Bacalieu, bringing, in addition to a quantity of minor wreckage, two spars, which, it is generally believed, did not belong to steamer Lucerne. As to other wreckage there is nothing to indicate that it came from the Lucerne. The crew of the Ingraham insist that some steamer was wrecked in the neighborhood of Bacalieu because all the heavy angle iron which was found along the shore could not otherwise have got there. Many mariners assert that all the wreckage thus far found comes from the previously stranded Ivydenc-
