The "Freeman's" Consistency.

Hon. Mr. Anglin is entitled to high credit for his consistency on the School ques-tion. As a rule, indeed, there is very little deems no labor lost that tends to advance it towards a successful ending. We differ from Mr. Anglin on the School question; we could have wished that his great talents been cast upon the side of Free, Non-sectarian Schools. But while differing, we nually issued some forty additional licenser, must credit him with ably advocating his side of the question; with continued perseverance in the face of repeated defeats; with devoting to the discussion an amount of labor and enthusiasm that rarely proceed from unpaid advocates. The reason subject are too strong for that. The Freeman will continue to attack the law; it will drinks and eatables. oppose its working in every possible shape. This is the one great subject uppermost in its thoughts and its policy; and the cirpreting the Freeman's recommendations in
