

toward the lessening of the principal. The talent system has proved a success, 16 talents accumulating to the amount of \$70.00. We would like all our members to take a talent for the year upon which we have now entered. We are grateful to our heavenly Father who has enabled us to do so much to help on the work in our own congregation, and hope He may bless us more and more in the year upon which we have entered. Our meetings are always opened and closed with devotional exercises. The congregation contributed, through the society, clothing for the Indians of the Northwest mission to the amount of \$22.65, for which the officers in charge were very grateful.

The Willing Workers' Mission Band meet in the basement of the church once per month. The meetings are always opened with devotional exercises. Great interest was shown in missions by the few members who attend. Our band took part in making up the bale of clothing sent by the members of the W. F. M. S. to the Indians of the Northwest. The bale of clothing was valued at \$22.65. Our receipts for the year amounted to \$10.00. We look for increased interest during the coming year.
