to combat dislayalty. The board of control today decided that the mayor should call such a meeting, in response to a petition, presented to the board yesterday. Controller Gibbons voted against it. The mayor said that in calling the meeting he would disregard a clause in the petition protesting against the annuling of marriages by the Roman Catholic hierarchy.

The petitioners stated that the object of the meeting was to form a "strong Protestant federation." Sinh Feinism was mentioned in the petition as one of the disloyal things to be combatted. The city solicitor advised the board that any expenditure by the city council to further the objects of the petition would be illegal, as they had no connection with municipal government. However, the board decided to call the meeting.

The discussion following cleared up many points of doubt and showed the great interest which the township trustees took in educational matters, A vote was taken resulting in favor of continuation by a very small majority. This, or the course, did not necessarily signify the general feeling of the ratepayers, but simply the private opinion of individuals present. All present were of the opinion that something must be done to improve existing conditions. It was further resolved to have each section hold a meeting of its ratepayers and get a definite decision in favor of either consolidation or continuation.

A committee consisting of the chairman and secretary of each board and councils was to meef after these district meetings and report the feeling of their section and take any necessary steps in carrying out their wishes.
