

GELATUM **VASELINE** PETROLEI

GRAND MEDAL at the Philadelphia Exposition, 1876.
SILVER MEDAL at the Paris Exposition, 1878.
MEDAL OF PROGRESS by the American Institute, 1880.

Bronze Medal and Diploma Awarded by the American Institute for 1874.

"Vaseline is an admirable preparation for many of the uses mentioned. As a base for ointments, it has given very great satisfaction, whilst its freedom from rancidity or liability to become rancid gives it great advantage over many animal and fatty bodies. We deem it an article of great value, and deserving of special mention for the above purposes." Bronze Medal awarded

The attention of physicians, druggists and hospitals, is called to this article, and to the fact that it is favourably regarded and extensively used in the United States, on the continent and in England, by the profession and pharmacists as a base for

OINTMENTS, CERATES, &c.,

As a dressing for WOUNDS, CUTS, BRUISES, BURNS, SPRAINS, PILES, RHEUMATISM, SKIN DISEASES, CATARRH, SORES or ERUPTIVE DISEASES, and all contused and inflamed surfaces, it is not equalled by any known substance.

In the treatment of COUGHS, COLDS, GROUP, DIPHTHERIA, and of THROAT and CHEST complaints, the best results are obtained.

One Pound Cans, 60cts. Five Pound Cans, \$1.50.

Extract from Report of Dr. Galezowski, the distinguished French Oculist.

"Vaseline is the best pharmaceutical preparation in the making of Ointments, as it is completely neutral and unchangeable. I saw it used for the first time in London by Dr. Lanson. I then procured the 'Vaseline' myself, and have experimented with it for four months on over one thousand patients, and I must declare that the knowledge acquired by practice has surpassed my expectations by far. . . . I have also prepared large quantities of eye ointments with 'Vaseline,' and have employed them on numerous maladies with very great success, and I can affirm that 'Vaseline' is very precious in ocular therapeutics, and must replace all the ointments in use at the present time. . . ."

"In conclusion, on account of its unalterability and its great affinity for perfumes, I believe that 'Vaseline' merits the attention of the scientific and industrial world."

DR. REUSCHE, of Hamburg (translation) says:

"In six cases of small-pox I have used Vaseline with eminent success—one a severe case of variola vera—a boy sixteen years old, not vaccinated.

"It developed the disease rapidly, and shortened considerably the duration of it—the time varying from seven to twenty days, the latter period for the most serious case only.

"While the application of Vaseline was regularly renewed, all inflammation and fever were kept off, and none of the patients, at any time, suffered any pain or great inconvenience, whereas, if neglected, the patient would become irritable and feverish.

"Applied internally, it removed the small-pox in the mouth and throat in a few days.

"A few scars remained in only one case, but the patient will outgrow these, as they are very slight."

From the LONDON LANCET, Jan'y 5th, 1878:

"We have before noticed this preparation of petroleum in terms of warm praise. It is of the consistency of butter, is perfectly free from odor, and does not become rancid. We have now before us several new preparations made from it, which are so useful as to call for remark. They are a pomade, a cold cream, and a camphor ice, all of excellent quality. We have tried all of them with most satisfactory results, having found them greatly superior to the preparations in common use."

Silver Medal and Diploma Awarded by the American Institute for 1875.
 "This article is one of great merit as a base for Cerates, Ointments, etc., and for Medicinal and Toilet uses, and is superior to the present bases used for Cerates, etc. It deserves the patronage of the profession, and above mentioned superiority." A Silver Medal awarded.

We manufacture the following Standard Ointments, according to the United States Pharmacopoeia, using Vaseline as a base instead of lard:

Ung.: Hydrargyri (½ Mercury) Ung.: Zinci Oxidi.
Ung.: Hydrargyri: Nitratis (Citrine Ointment) Cerat.: Resinae.
Cerat.: Plumbi Sub-acetatis (Goulard's Cerate) Cerat.: Simplex.

We recommend them as vastly superior to anything in use. PRICE 75 CTS. PER POUND. NO CHARGE FOR JARS. Send for Pamphlet.

Chesebrough Manufacturing Company, New York,

No. 249 NOTRE DAME STREET, MONTREAL.

Pomade Vaseline, Vaseline Cold Cream, Vaseline Camphor Ice, and Vaseline Toilet Soap, are all exquisite toilet articles made from pure Vaseline, and excel all similar ones.
