

Corporations should investigate "Yorkshire" service re stock issues

WHEN the YORKSHIRE AND CANADIAN TRUST LIMITED is appointed Trustee of stock or bond issues, directors and officials of corporations are protected against over-issuing and all other errors which would make them personally liable. Besides this, investors know that such securities are guarded by efficient management and ample assets.

Many investors—conservative ones—will purchase no stocks or bonds unless a reliable trust company is both Trustee and Registrar.

This is but one important feature of "YORKSHIRE" service to corporations. It will pay those interested in corporation development to investigate.

Put Your Public Utilities on a Sound Foundation

Public utility properties are generally regarded as standard investments in any community.

Their stocks are also indications of the attitude of the various governments to capital invested in their districts.

As other investors take their cue from quotations of public utility stock, see that your public utility companies are given fair treatment and allowed a return sufficient to induce other capital to the Province.
