Charitable and Benevolent Institutions.
Educational Institutions.
Incorporated Companies for divers purposes.
Literary and Scientific Institutions.
Naturalization.
Religious Bodies, privileges and relief.
Road allowances granted to divers parties.
Titles and Trusts, power to hold or convey property.
Miscellaneous Subjects.

Under one or other of the foregoing Titles or the Sub-Titles thereby referred to, every Act is entered, except those on Miscellaneous subjects which could not be brought under any of them, or under any general Title. These are entered under the words most distinctive of their subjects. They are few in number, and can be easily found.

The Imperial Acts having especial reference to the Province are included in Part I.

Public Works constructed by the Province, and paid for out of the General Revenue, and not out of any Local or Special Fund, are entered under the class "CANADA," although situate wholly in Upper or Lower Canada.

The use of the Classification in finding *all* the Acts on any Class of Subjects is sufficiently obvious.—It will also be often useful in finding a particular Act; for there are many Public Acts which might be entered indifferently under a variety of Titles, and even Corporate names cannot always be correctly remembered. See for example the Titles "Charitable and Benevolent Institutions," and "Law and Practice." In such cases the General Titles will be found of great service.
