

“ THE ORNITHOLOGY OF CANADA,

By J. M. LeMoine,

—Second Edition.—

(*In French*), with the English, French and Latin names of the Birds—In two volumes.”

This small work will be found valuable to identify the Birds of the country ; it contains a synopsis of their habits, and a variety of amusing and interesting information, in classic French ; will also be found an agreeable book to learn the French language, and has been liberally patronised by the Lennoxville College, the Laval University—the Montreal and Quebec Normal schools, Colleges of Ste. Therese, Ste. Anne, Nicolet, the Ursulines and General Hospital Convents, &c.
