

computer systems solutions for: distribution • manufacturing
banking • social services • defence • mapping • drafting
office automation • energy • real estate • videotex
natural resources • communications • education • insurance

“**A**lthough Systemhouse has been involved in many different industries and many different government projects, the fact remains that all along we have been in one business and one business alone... the business of successfully and cost-effectively applying computer-based solutions to information management problems.”

R.M. Bryden
Chairman

SYSTEMHOUSE

**We don't make computers...
We make them work.**
