

1886. Ellis, R. W. *Annual Report, Geological Survey*. Report on the geology of the district covered by the Sherbrooke map sheet, or the southeast quarter sheet of the Eastern Townships map.
1887. Ellis, R. W. *Annual Report, Geological Survey*. Report on the geology of the district covered by the Quebec map sheet, or the northeast quarter sheet of the Eastern Townships map.
1888. Ellis, R. W. *Annual Report, Geological Survey*. Report on the mineral resources of the Province of Quebec, containing a review of the economic geology of the district described in the last two preceding reports.
1894. Ellis, R. W. *Annual Report, Geological Survey*. Report on the geology of the district covered by the Montreal map sheet, and the southwest quarter sheet of the Eastern Townships map.
1903. Ellis, R. W. *Bulletin on Asbestos, Geological Survey*. Reviews the history and progress of the asbestos industry.
1904. Merrill, G. P. *Bulletin, Geological Society of America*. Discusses the mode of occurrence of asbestos.
1905. Cirkel, F. *Report of Mines Branch: Department of the Interior*. Discusses the mode of occurrence of asbestos, and describes methods of mining and concentrating.
1905. Dresser, J. A. *Bulletin, Geological Society of America*. A general description of the igneous rocks of the Eastern Townships with a discussion of their genetic relations.
- 1898-1908. Obalski, J. *Reports of the Department of Mines of Quebec*. In several reports—especially those for the years mentioned—the progress in mining asbestos and chromite is described, and the distribution of the mineral deposits noted.
1909. Cirkel, F. *Report of Mines Branch: Department of Mines, Canada*. Discusses the mode of occurrence, mining, concentration, and uses of chromite.
1909. Dresser, J. A. *Economic Geology, New Haven, Conn., Vol. IV, No. 2*. Describes mode of occurrence of asbestos, and discusses its origin.
1909. Dresser, J. A. *Journal, Canadian Mining Institute, Vol. XII*. Reviews the mineral resources of the Serpentine belt, and discusses the mode of occurrence of asbestos and chromite.
1910. Barlow, A. E. *Journal, Canadian Mining Institute, Vol. XIII*. Discusses the mode of origin of asbestos.
1910. Dresser, J. A. *Journal, Canadian Mining Institute, Vol. XIII*. Discusses the geology of the asbestos deposits.
1910. Dresser, J. A. *Summary Report of the Geological Survey for 1909*: reprinted as a separate. Describes the geology and mineral resources of the asbestos district of southern Quebec.
1912. Barlow, A. E. *Geology and Mineral Resources of the Chibougamau Region*. Bureau of Mines, Quebec.
