wards carrying it into operation was then made, to pay to the Treasurer. but the Secretary was satisfied it could not be sufficiently carried out unless some one gave his personal attention in connection with the committee. The Executive Committee of Nov. 13, 1868, adopted the following resolution :

"On motion of Dr. Bancroft, seconded by Mr. Curran, it was Resolved that the Secretary be requested to make arrangements, promptly, for holding missionary meetings throughout the Diocese

And the Secretary agreed to give four months to the work, one to each Deanery, leaving town in May and returning in July, if the daily service at the Cathedral was provided for. The Brethren in the city, present at the meeting, agreed to do the duty, and the Secretary spent January and February in visiting the Deaneries of Bedford and Iberville, with what success the reports of the Rural Deans and Charges will show.

But before the remaining Deaneries could be likewise visited, the brethren in the city, found the duty of the daily service inconvenient, and the Secretary was notified in writing, that his absence from the Cathedral could no longer be supplied. This compelled a relinquishment of advice of the Chancellor, as Registrar for all the appointed visits in those Deaneries. Hav- matters connected with endowments, etc. ing made the report required on behalf of the Committee, perhaps the Secretary may, on his own account, be allowed to say that his three year's experience in the office only confirms the Mission Fund has heen administered-will conviction already expressed in many ways, create a desire in the different Districts to and on many occasions, that small gifts, so as not to be burdensome to the giver, frequently made so as to form the habit of giving, and also to accumulate a larger income-in other words, the scriptural plan of weekly offerings is the only plan which will meet the growing wants of this Diocese and make it both self-sup-

porting and self-extending. The Secretary, in this, his last official act, may be pardoned if he adds, that, he esteems it one of the greatest privileges of his life, besides other modes of working for the mission, to have advocated by public preaching or speaking, on one hundred and six occasions, the holy cause of missions. He has endeavored to be faithful, and in now surrendering his trust, desires to render his grateful acknowledgments for the kindness with which his labors have been regarded, and the many acts and expressions of hospitality and friendship which he has received from his brethren the Clergy and Laity.

The report received applause.

On behalf of the lay committee on Missions, Mr. C. J. Brydges reported as follows :

The Committee appointed by the Executive Committee to enquire into the question of the Missions, throughout the Diocese of Montreal, beg to make the following report: The grant from the S. P. G. is now £2000

Stg., but it has been intimated from London that this amount will be gradually diminished. and that in a few years it will entirely cease.

This will render necessary increased contributions in the Diocese itself towards the support of the Missions, and forces also attention to the necessity of reducing to the smallest pos-sible sum the payments towards the Missions.

5. That, excepting in any special case which may be directly recommended by the bishop, each fresh application for a Mission grant shall emanate from the rural-decanal Board, who shall forward it for consideration to the Mission Board appointed by clause 4.

6. That the salaries to be paid to Clergymen employed as Missionaries shall not be less than the following, viz. :-

For Deacons..... \$500 per annum For Priests under 10 years standing. 600 For Priests above 10 years standing. 700 ". 7. That the sums to be hereafter received

from the S. P. G. be paid in full to the Treasurer to be dealt with as herein before recommended, as part of the General Mission Fund, care being taken that the claims of certain older Missions and annuitants are properly respected.

8. That to properly carry out these various arrangements, it is indispensably necessary that a permanent paid Secretary be appointed, who will act under the directions of the Executive Committee, and who will also act, under the

The Committee believe that the foregoing rules, if adopted and strictly carried out, will get rid of the difficulties under which the make each Mission as fast as possible self-sustaining-and thus permit of the available funds being made use of in opening new fields of labour and usefulness in the Diocese.

Canon Bancroft moved, seconded by Mr. G. Moffatt, "That the foregoing reports be received and considered to-morrow "- Agreed. The Treasurer's report, read by Mr. J. Hutton,

stated that the balance in the hand of the Treasurer, on June 3rd, 1868, was \$2.83; since received \$240.12; expenditure \$197.02.

The Rev. Canon Bond read the following report of the Deanery of Hochelaga:

My LORD,-On Tuesday, the 9th November, at four o'clock, the members of this deanery met, after due notice, in the school-room of St. George's Church, and adopted this report. There were present thirteen clergymen and ten laymen, who represented eleven incumbents; the deanery comprises twenty incumbencies; Divine service was held at 7 p.m., in St. George's church, and the sermon was preached by the Most Reverend the Metropolitan. The routine business appertaining to the deanery was trans-acted, and I have to report the recommendation of the following grants, provided the conditions stipulated are fulfilled:

As a rule, this arrangement of the members of the church at Brandon, the has been only partially carried out, and it is missionary schoolmaster has been removed, and clear that a different system must be at once put in force.

The Committee have had the advantage of the presence of the Metropolitan at their meetings, and they are glad to know that the recommendations, which they have decided to make, meet with his Lordship's full concurrence.

After having carefully considered the whole matter, the Committee have decided to recommend as follows :---

1. That it is essential that as many as possible of the present Missions should be formed into parishes, and be dependent solely portunities for schooling. The confirmations npon their own resources for the maintenance within the deanery have been : Trinity church, of the Church.

The church at Brandon is also in a decaying state, but Prof. Hicks is endeavouring to obtain money so as to prevent its going altogether to ruin. The attention of the Bishop is respectfully drawn to the fact that two charged with the property is being setting forth briefly the work done by the com-mittee, and asking leave to continue their labours. The committee would have been gratified to be able to report more satisfactory results; but it must be remembered that in works of this kind nation of the side that in the members of the Board in each Deanery. It to the fact that two churches are unoccupied works of this kind patience is required, and

in has been appointed to the charge ssion Church of St. George in this city, a view also of initiating a French service sermon, resigning St. Ours, Ste. Victoire, certain information. The replies to these ques-tions were tabulated, and by this means tolerably correct statements have been obtain-ed. It seems that whilst in some localities not much improvement has taken place, in many places it is clear that much more can be done to support the Church. The old arrangement was that the Society and St. Robert. The Rev. A. L. Fortin has the mission is served at certain intervals by the Rev. J. Merrick. The school is taught by a female teacher. There are now two abandoned missions with excellent churches in them within the deanery, and Brandon, it is to be feared, will soon be a third mission so given up. There is little doubt that if these missions had been filled by clergymen able to officiate in the French tongue this sad result would not have existed, seeing that, in years gone by, in one part of the deanery, 100 souls have left the various Protestant denominations for the church of Rome, because of having first lost their own language and been deprived of op-67 ; St. James', 15 ; St. Luke's, 20 ; St. George's, 2. The first meeting of the comin on education, under the said legislation of the Synod, was held 12th August, 1868, the most Rev. Bishop Fulford present and presiding. The committee, at that meeting, resolved to confine their efforts, for a time, to the specific duty of founding in or near Montreal a girl's school of the highest order; and a sub-committee was appointed to inquire and report a suitable building or site for the proposed school, and also to draw out and publish a statement of facts which might represent the necessity and recommend the object. Both of these duties were discharged by the committee; but before any of the measures proposed and adopt-ed by the committee could be carried into execution, the diocese was deprived of its deeplylamented bishop. Bishop Fulford's work was done; the Master called him to receive his reward. The labours of the committee were. of necessity, suspended until Bishop Fulford's successor could put himself at the head of the List of Lay Delegates (whose certificates of elecgreat work.
