

HAPPENINGS IN THE WORLD OF SPORT

Two Players on the Famous Hamilton "Tigers" have Joined the Overseas Contingent

OTTAWA IN LACROSSE

Outrout Lawn Bowling Club Will Extend Its Greens—Yachts Built to Defend the America Cup Will be Raced This Season.

Day by day it becomes more evident that the Royals are rapidly rounding into form, and that they are calculated to fill a more prominent position in the International League race than heretofore.

Russell "Pann" Thompson, and Clarence Finckley, of the Hamilton Tigers, have been the recipients of slight tokens of the esteem in which they are held by their club members.

Over two hundred players have been registered in the Senior League of the Province of Quebec Football Association. It has been decided to start all first division games at 3.30 until further notice has been given by the clubs.

The Outrout Lawn Bowling Club will enlarge its lawn, taking in twelve additional feet. The Indian branch, with close to forty members, will be affiliated.

The Newark International League Club has assumed the provisions of the contract of Catcher Fred Tyler, who went to Rochester from the Boston Nationals. Rochester has unconditionally released Catcher McAllister.

Frankie Fleming, who has in the past fortnight been working out with a number of the best fighters in New York, will return home tomorrow. He will commence training at once for his future engagements.

There is a likelihood that Ottawas, after an absence of a couple of years from the National game, will again figure in the National Lacrosse Union. It will not be necessary to import any players, as Benedict, Fairbairn, Shea, Lavelle, Seed, Roberts, Lascelle, Dowley, Goodwin and the majority of the Capital veterans are available.

Home-run Baker, of the Athletics, is going to play third base and captain the Upland team of the Delaware County League. He will likely be back in the big show in a couple of weeks.

The yachts Resolute and Vanitie, built last year to defend the America's cup against Sir Thomas Lipton's challenger, the Shamrock IV, will be placed in commission this summer and will race in special regattas and in the cruise of the New York Yacht Club.

It will be Westminster and Vancouver at the Coast this year again, as Victoria has been declared out. They made a success of the two team league before, and expect to do so again.

Manager Clymer thinks the Leafs will do. He says the infield is all right, the outfield is all right, the catchers are all right, and it is up to the pitchers. There's a world of meaning in that final observation.

It's a poor season when Canada cannot win at least one big Marathon.

Most of the Vancouver amateurs who defended the Mann Cup last year are going to join Con Jones' professional aggregation this season. Peacock, one of the best amateurs on the Coast, has already signed up.

"Knotty" Lee, the Guelph manager, is as lucky as John Ganzel, of Rochester. He has been handed a whole team for the Canadian League by President McCaffery, of the Leafs.

Maurice E. McLoughlin, the famous California tennis star, may not be able to play at the U. S. championship tournament in August. Lindley Murray may also be absent, due to injuries to his feet, from which he has not fully recovered.

Charlie Querrie is busy promoting a two or three club senior lacrosse league for Toronto this coming season. He says that there are nearly fifty professional lacrosse players in that burg available.

Third Baseman Hollander of the Leafs is a barber and solicitor at York (Pa.). He is a bundle of nerves, and keeps fighting all the time.

Cloud Foster won the ninety-nine mile Oklahoma championship automobile race for a purse of \$1,000. His time was 2.02.03 1/2.

The match between Johnny Kilbane, featherweight champion and Joe Mandot, lightweight, set for May 3 at New Orleans, has been called off.

WARRANTS SHOULD BE DEPOSITED.

New York, April 22.—Warrants for subscriptions to the New York Central 20 year 5 per cent. debentures, should be deposited on or before April 27th. The Guaranty Trust Co. requests deposits of warrants as soon as possible to avoid confusion and delay on the last day.

LITTLE HIGHER TEMPERATURE.

Fair to-day and on Friday, with a little higher temperature. Pressure is highest over the New England States and lowest in the Middle Pacific States. A few light showers have occurred in the Western Provinces; otherwise the weather has been fine generally.

FOR SALE

Vicinity Westmount Park, north of and on level with Sherbrooke Street, brick and stone attached house. First floor (parquet flooring) drawing, dining room, pantry, kitchen, coat room; up stairs, 6 bedrooms, clothes closet in every room, built-in closet for furs, etc.

EASTERN TRUST COMPANY, CANADA LIFE BUILDING.

NOTES ON PUBLIC UTILITIES

Missouri Public Service Commission, it has been announced, will investigate the question of rates charged by Kansas City Electric Light Company, which is a subsidiary of Kansas City Railway & Light Company. Engineers of the Commission have completed an audit and appraisal of the company, and the rate hearings will begin about the first week in May.

A report from Nashville, Tenn., announces that Jitney buses have made their appearance in that city in competition with the street railway lines of the Nashville Railway and Light Company, which is a subsidiary of Tennessee Railway, Light & Power. An estimate of the gross earnings of all the jitneys now running, which number about 50, is \$400 a day. The enforcement of the new Tennessee law, requiring the filing of an indemnity bond with the State by each jitney, and their strict regulation by the city, will probably lessen the number, however, and will thus lessen the effect on the street railway earnings.

Kings County Electric Light and Power Company and the Edison Electric Illuminating Company, of Brooklyn, in their quarterly statement to March 31, 1915, announce combined gross operating revenue of \$1,754,248, as against \$1,652,743 for the same period of the previous year, an increase of \$101,505. The total operating expenses amounted to \$1,119,580, as against \$1,055,893 in 1914, an increase of \$63,687. Net income amounted to \$638,668, as against \$596,950 for the corresponding period of 1914, an increase of \$41,718. According to the report the stock outstanding amounts to \$13,353,500, as against \$13,182,000 for 1914.

Kyostone Telephone Co. reports gross earnings for March, 1915, of \$112,158, as against \$108,286 for the same month of the previous year. Operating expenses amounted to \$57,187, as against \$54,411. Net earnings were \$54,971, as against \$53,875 for March, 1914, and surplus after interest charges amounted to \$78,882, as against \$78,817. For the three months ended March 31, 1915, gross earnings amounted to \$331,992, as against \$323,644 for the same period in 1914. Operating expenses were \$198,393, as against \$196,632, and net earnings amounted to \$133,600, as against \$127,012. Net surplus, after interest charges, was \$155,558, as against \$154,764.

WHEAT CONDITIONS. Topeka, Kas., April 22.—Secretary Mohler, of Kansas Board of Agriculture, estimated wheat conditions 92.8 per cent. Estimated acreage is 8,586,300, or an estimated crop of 159,000,000 bushels on the basis of present conditions. A year ago the condition was 96.5 per cent on an acreage of 8,550,000. Winter loss is estimated between 3 and 4 per cent.

WHEAT ACTIVE AND FIRM. Chicago, Ill., April 22.—Wheat opened active and firm. Cables were regarded as better than expected. Foreign houses were buying at west. The advance was checked by liquidation and on advice of beneficial rains in winter wheat belt. Corn was a shade higher at the start, helped by the rise in wheat.

NIPISSING'S BULLION SHIPMENT. Cobalt, Ont., April 22.—Nipissing have started the week off well with a bullion shipment of 41 bars, which went to New York. The consignment contained 50,630.15 ounces and was worth \$25,315.08.

SUGAR FUTURES QUIET. New York, April 22.—Sugar futures market opened quiet and irregular. May, 3.75 bid; July, 3.85 to 3.88; Sept., 3.98 to 4.01; Dec., 3.77 to 3.80.

THEATRICAL NEWS

THAT COMING McCORMACK CONCERT. Mr. Veitch, the concert promoter, still continues to advertise John McCormack, the man who has frequently been accused of holding anti-British views. We are positive that the patriotic citizens of Montreal do not know of the anti-British views which Mr. McCormack is said to have expressed during his recent tour of the Western States. If they knew, they would absolutely refuse to attend the concert and give Mr. Veitch, who seems so anxious to obtain money, a well deserved rebuke.

Competent critics also state that Mr. McCormack's voice is now only second rate in quality, and that he has deteriorated during the past few months. Mr. Veitch has made heroic efforts to tell the public of Mr. McCormack's loyalty and of his wonderful voice, but his protestations do not ring true. In other words, he "doth protest too much." It is to be hoped that the well deserved rebuke which Mr. Veitch merits will be furnished him when he finds that his expected receipts have been turned into a deficit. Canada does not want to have anything to do with singers or others who hold anti-British views.

Furthermore, for some time past, Mr. Veitch has advertised in the theatrical programmes, by reprinting press notices which have appeared in various newspapers in the United States, following the McCormack concert, telling of McCormack's wonderful vocal powers and how his audiences have been subtly charmed by his wonderful appeal. What care the music-loving public if John McCormack has made an impression in the republic to the south of us? What they want when they are paying good money for, is to hear a metropolitan singer of the first water, not one who is on the decline, whose place in the sun is gradually becoming smaller, with each and every concert-stage appearance.

ANOTHER CHANGE IN CAST. The third performance of "A Country Girl" by members of the M. A. A. Operatic Society last night saw Miss Josephine Delancy in the role of Nan. None but the highest praise can be given her, not only for her clever acting, but also for the admirably manner in which she sang her various song numbers.

On Friday evening and Saturday matinee, she will again be seen in that role. There has been an improvement noticed in the chorus and although it was strong at the beginning of the week, further confidence has been the means of strongly fortifying it to a greater degree of excellency. This evening's performance will benefit the Protestant Infants' Home.

STRIKE IS UNCONFIRMED. Cobalt, Ont., April 22.—No confirmation can be secured of a reported strike on the Right of Way Mine.

Heard Around the Ticker

Dominion Linens, Limited, which is the only concern of its kind in Canada which produces linens of superior grade, appears to be doing better from the standpoint of business after the outbreak of the war last year. The earnings in the four and one-half months the company was operating last year were sufficient to take care of the 7 p.c. preferred stock dividend, and approximately 5 p.c. upon the common stock. The preferred stock dividend has been paid up to and including December 31, 1914. For the first three months of this year the business has increased approximately 30 p.c. over the 4 1/2 months the company was operating last year. Both the company's plants are working full time, and the finishing departments of the Guelph plant are working every night until ten o'clock. The merchants generally throughout the country are giving very loyal support to the concern, while the company expects in the near future to receive a large amount of business from the Governments, especially the Federal, who are featuring the Made-in-Canada campaign.

Religious organizations at White Plains, N. Y., have blacklisted all moving picture theatres that permit shows on Sunday. They would certainly be kept busy here in Montreal.

Around the "Street" there are said to be three infallible signs of spring, viz., the appearance of the hand organ man, the Italian who peddles bananas and calls out "Twenty cents dozen, vera ripe!" and the annual rise in Canada Steamship stock. It is somewhat of a surprise to the "man on the Street" to know that Canada and the United States import nearly twenty million dollars worth of bananas per annum, while the total importations of tropical and semi-tropical fruit made by the two countries amount to nearly eight hundred million dollars per annum.

The president of that New York Trust company who achieved some measure of success without the use of the telephone or typewriter is certainly an anomaly. Throughout his forty-four years' incumbency of the office he resisted all those inventions which speak of progress in modern business. How much greater would have been his success had he possessed a receptive mind.

Greenfields & Company's Monthly Review for April, out to-day, discusses in an interesting manner the functions of stock exchanges, the restoration of confidence now manifesting itself, the recuperative power of an agricultural community such as Canada, and a number of other interesting features connected with the security markets. The review issued by this firm is one of the best and most comprehensive which appears.

There are constant stories coming forward from various parts of the country that business houses, in order to evade the recently imposed war stamp tax, on mail matter such as circulars, catalogues, bills, etc., are having them posted just across the American border. They are also attempting evasion by messenger delivery. Regarding the latter method, the post office has announced that this is in direct contravention to the law and is liable to a fine of \$20 per letter (which these are considered as, as soon as they are sealed). According to information secured by a Toronto printing house, at least several firms here have decided to have their work done in the States. These concerns have been in the habit of mailing thousands of circulars, and by having the matter mailed in the States \$100 is saved on each 10,000 circulars. But the plan is not practical for distribution of mail matter, because advantage cannot be taken of the local mailing rate of one cent per letter, unless the circulars are sent in unsealed envelopes, when the rate would be the same, but without the cost of the war tax.

Come to think of it, Sam Weller's advice to "beware of vendors" was not far astray, after all. Mrs. Ida S. McNabb, a widow, aged 37, of Milwaukee, was awarded \$30,000 by a jury in Washington in her suit for breach of promise against John S. Kinney, aged 78, a Michigan millionaire.

In the issue of Monday the 19th instant, the Journal of Commerce quoted Dominion Bank as selling at from 109 to 113. This should have read Dominion Bridge. The stock of the Dominion Bank is selling around 227, or considerably over 100 points above the prices credited to it by the Journal of Commerce. The error was made when taking the quotation from the ticker, and is regretted by the Journal of Commerce. The Dominion Bank pays a dividend of 12 per cent, together with a bonus of 2 per cent or total disbursements of 14 per cent, per annum. It is carefully and conservatively managed, and altogether is one of our most progressive banking institutions. The price at which it is quoted is a fair indication of the way it is regarded by the public.

The unfortunate failure of the Dominion Trust Company of Vancouver with all the complications arising therefrom has led to an agitation in some quarters for the placing of trust companies under Federal control much as the banks are at present. Most of our trust companies are efficiently managed, but apparently there has been considerable laxity in regard to their supervision in certain provinces.

Some enterprising promoter should form a merger of the moving picture shows throughout the country. In the United States eleven million people attend the movies daily. There is \$120,000,000 invested in the industry in the United States while the public pay \$275,000,000 a year as entrance fees.

Toledo Railways and Light Company is now in a fair way to have its franchise negotiations brought to a satisfactory conclusion. The committee which for many months has represented the city of Toledo in this connection, has been discharged and a new committee formed, composed exclusively of members of the council, the mayor and city solicitor not being of the committee. Henry L. Doherty, chairman of the Toledo Railways & Light Co., recently told the citizens' franchise committee in Toledo that under existing conditions it would be necessary to raise the money to place the street railways in good condition in Toledo. It is estimated that about \$1,500,000 would be required for this work.

Around the "Street" favorable comments are being heard regarding the action of the Board of Trade in advocating a civic industrial information bureau and also a publicity bureau. A little concentrated action on the part of the various business organizations of the city would do much towards again putting Montreal "on the map."

GLEANED FROM MANY SOURCES

J. P. Morgan is expected to return from Europe next week.

A combined land and water attack on the Dardanelles is thought to be imminent.

Average price of twelve industrials, 89.54, off 0.47. Twenty railways, 98.45, off \$30.

Town of Peabody, Mass., will ask Legislature for permission to incorporate as a city.

A minority of the stockholders of Rock Island have formed a protective committee headed by N. L. Amster.

The General Electric Co., reports 11.12 per cent. earned on the stock in 1914 against 13.2 per cent. in 1913.

Royal Robbins, former treasurer of Waltham Watch Co., has given \$10,000 for relief of Waltham poor.

Giving employment to 300 men, the Lexington mine of the Anaconda Copper Co., will resume operations soon.

The Ford Motor Co., Limited, of Canada, has advanced the wages of its employees and reduced their working hours.

The United States reply to Germany's criticism of its neutrality policy places the responsibility for future relations on Germany.

The Society of Netherlands Bulb Growers of Holland will send out flowers as gifts to the hospitals for the wounded of the warring nations.

Pres. Blackton, of Vitagraph Co., of America, said that for 1913 \$275,000,000 was paid by the public for admission to motion picture houses.

There are conflicting reports from the Carpathian front, but the heavy offensive of the Russians has apparently been let down considerably.

An official of the J. G. Brill & Co., of Philadelphia issued a denial of the report that the firm has received an order for 3,000 army trucks for Russia.

Exports from the port of New York in March totalled \$126,000,000, compared with \$56,134,546 a year ago. Exports for the month exceeded imports by \$36,431,203.

Articles of incorporation were filed at Albany, N.Y., by the Color Projection Corporation of New York, capital \$1,000,000, to manufacture modern picture projections.

Major Luther S. Bent, Civil War veteran and former president and chairman of the board of directors of the Pennsylvania Steel Co., died at his home in Philadelphia, aged 89.

Wilmington, Del., despatch says that Hercules Powder Co. has secured a large contract for smokeless powder from one of European belligerents, said to aggregate about \$20,000,000.

Bill is introduced at Albany for \$27,000,000 bond issue for completing large canal construction work, and paying claims against the state for damages. If passed, proposal will be submitted to popular vote next election. Legislature is expected to appropriate \$4,000,000 this week to pay for completing work on large canal contracts already let.

NIAGARA FRUIT GROWERS PLAN TO SELL ENTIRE PEACH CROP

St. Catharines, Ont., April 22.—A special committee of fifteen has been appointed by the executive of the Niagara Peninsula Fruit Growers' Association to inaugurate a whirlwind campaign to raise a fund of \$4,000 for advertising tender fruits, and to encourage the people of Canada to consume a greater amount of Canadian-grown fruit.

This is to be part of a plan for greater distribution, to dispose of the unusually large crop of peaches which is expected this year. The aim is to harvest the entire yield, and get prices down so low that peaches can find their way into every home.

Hamilton Fleming, of Grimsby, is chairman, and Senator E. D. Smith, is one of the active members of the committee.

GOOD PROSPECTS FOR CROP.

Chicago, Ills., April 22.—Joseph Wild, crop expert for E. W. Wagner & Co., says the central west reports show oats coming up in fine condition and that Iowa is preparing a very big corn acreage. This week's weather has been perfect for crops and field work.

STOCKHOLDERS TAKE NEW ISSUE.

Youngstown, Ohio, April 22.—Stockholders of Youngstown Sheet Tube Co., have taken practically the entire \$5,000,000 issue of new stock authorized several weeks ago. The time of exercising the right to take the new issue expired on April 20.

DEALERS IN UNLISTEDS.

New York, April 22.—Whentley, Matchett & Co., dealers in unlisted securities, have moved to the Equitable building.

N. Y. CURB FIRM.

New York, April 22.—Curb market firm. Electric Boat sold up 10 3/4 points to 80 and back to 76. Preferred was quoted 90 to 92. International Petroleum sold at 9 1/2. Emerson at 10, is unchanged.

New York, April 22.—Curb market firm. Kelly Springfield Tire sold 13 1/2, up 1/2; Standard Oil shares were quiet and steady. Stewart Mining quoted 1 1/2-16 to 3/4; Elec. Boat 76 to 78; pfd. 90 to 92; Kerr Lake 4 1/2 to 5; Inter. Pet. 9 3/4 to 10; Braden 8 1/2 to 9; Juneau 15 to 16; Cons. Ariz. 15-16 to 17; Houston Oil 14 to 15; Central Rights 19-22 to 21-23; Stores 10 1/2 to 11; Anglo 18 1/2 to 19.

COTTON FUTURES BARELY STEADY.

Liverpool, April 22, 2 p.m.—Futures barely steady 3 1/4 to 4 points off. Sales 10,000 bales including 8,800 American. May-June 5.57, July-Aug., 5.72; Oct-Nov. 5.88 1/2; Jan.-Feb., 5.95d.

SPOT WHEAT ADVANCES.

Paris, April 22.—Spot wheat up 1 1/2 from Wednesday at 18 1/4.

NEWS OF WORLD TOLD IN BRIEF

Britain has 36 Divisions Composed of 750,000 Men Fighting in France

U. S. REBUKES BERNSTORFF

Reiterates Refusal to Place Embargo on Arms Germans Hurrying Reinforcements Into Belgium—Socialists Seek Basis for Peace.

The British expeditionary force in France, which at the beginning of the war consisted of six divisions, has been increased to more than 36 divisions, or roughly speaking, 750,000 men, according to a statement made by the Rt. Hon. David Lloyd George, chancellor of the exchequer, in the House of Commons yesterday.

The Chancellor added that the place of every man who had fallen in battle had been filled and that the army was adequately equipped. He reiterated the need for a greater supply of munitions, declaring that during the battle of Neuve Chapelle more ammunition was used than in the whole of the South African War, which lasted nearly three years. The interesting information also was given that the output of the munition factories had been increased more than nineteen-fold since the outbreak of the war, but the call was still for more, and as Mr. Lloyd George continues to hold the opinion that consumption of liquor is interfering with the work, he promised legislation to deal with this matter.

The United States Government has replied to the recent memorandum in which Count von Bernstorff, the German Ambassador, declared that "if the American people desire to observe true neutrality they will find some means to stop the exclusive exportation of arms to one side, or, at least, to use this export trade as a means to uphold the legitimate trade in foodstuffs." The American note, after pointing out that the language used by Count von Bernstorff, "is susceptible of being construed as impugning the good faith of the United States in the performance of its duties as a neutral," the note "takes it for granted that no such implication was intended" and suggests that evidently the German Ambassador "is laboring under certain false impressions."

The attitude of the United States on the question of exportation of arms is re-stated, namely, that to place any embargo on arms during the progress of a war would be "a direct violation of the neutrality of the United States."

The railways from Germany into Belgium are crowded with troop trains. All ordinary passenger traffic has been stopped, and to shield as much as possible the nature of the activities, the German general staff has withdrawn its scanty guard from the Dutch border and replaced it with a heavy screen of cavalry. It is generally felt that a great battle in Flanders is at hand, that the extraordinary activity on the part of the German army indicates the initiation of a desperate offensive, and that another vigorous attempt to push forward to France similar to the hard drive made at the opening of the war is about to be launched.

The Rome Messaggero publishes an interview with Senator Riccardo Carafa, which gives a pessimistic forecast of the outcome of the negotiations between Italy and Austria. The newspaper says the Senator, who is a frequent caller at the House of Prince von Buelow, the German Ambassador to Rome, makes the statement that he heard from the Prince a "confession" that the Italian-Austrian conversations are not proceeding satisfactorily. Their failure will be followed by a rupture between Rome and Vienna. He says that "in this eventuality Germany will do her duty to the end by the side of Austria."

The Socialists of Germany are reported to be making an earnest effort to seek for a basis on which the cessation of the war can be brought about. Dr. Breitscheid, a prominent member of the German Socialist Party, is now in Holland consulting the Dutch Socialist leaders with a view to getting into communication with the British, and through them with the French Socialists in an endeavor to bring pressure to bear on the various governments. It is declared that the German Socialists are virtually unanimous in favor of peace and against any annexation of territory.

A Paris despatch to the Central News says that the opening session of the Hungarian Chamber was a gloomy sitting. The Chamber refused to vote the new military credits demanded by the General Staff. The attempts of Count Tisza, the premier, to break down the opposition were futile.

A Reuter despatch from Petrograd says that as a substitute for the vodka shops, which have been abolished, there have been erected in the open places throughout Russia, "People's Palaces" and smaller buildings where the people may meet for entertainment and instruction. Considerable progress has already been made in carrying out this scheme, the scale of which can be inferred from the fact that in the government of Poltava alone 300 of these popular recreation places have been opened or projected. They contain reading rooms and halls in which concerts, exhibitions and other entertainments can be given.

Light to moderate winds, a few showers but mostly fair to-day and on Friday. A depression is centered over Nebraska and is still high over the eastern half of the continent.

Light showers have occurred in Michigan from Lake Huron to New Brunswick, fallen heavily in Southern Manitoba.

EXTENSION OF NOTES OF M. K. M. New York, April 23.—Interest in identification of notes, Kansas and Texas are quite common. No provision has been made to pay off notes that may be undeposited, but so far as come to light to indicate antagonism against any holders.

Practically all large holders of the notes filed their willingness to deposit same, and noted that St. Louis bankers who hold notes are "insurgents."

SEALED ORDERS FOR THE ITALIAN NAVY. Some, April 23.—Sealed orders have been sent to commanders of all Italian submarines. They are expected to sail as soon as possible.

Sailors on all warships have been notified hereafter they must not mention in their reports at which they touch.

THAW SECURES TRIAL BY JURY. New York, April 23.—Justice Hendrick, preside Court, has handed down a decision in the Thaw trial by jury to determine if he is sane or insane.

BALDWIN LOCOMOTIVE UP. New York, April 23.—Baldwin Locomotive Co. up 2 1/2.
