BOOK REVIEW.

Any book reviewed in this department may be ordered through this office, at the price stated.

A NEW BOOK ON INSECT PESTS.

"Insects Injurious to Farm Crops" is the title to a volume of 295 pages, lately issued by E. Dwight Sanderson, B. S. Agr., Entomologist, Delaware Agricultural Experiment Station. This book is most conveniently divided into fifteen chapters, all of which are important and readable. The one on General Farm Practice Against Injurious Insects is especially interesting. It shows why "prevention is better than cure." Methods of preventing insect pests from gaining a foothold in a locality are pointed out and described. Insects beneficial to the farmer are also discussed, and many of them are illustrated. The writer's idea has, evidently, been to produce something suited to the needs of every husbandman. He has hit it admirably. The work is published by John Wiley & Sons, of New York. The price, \$1.50, is within the reach of all. It may be ordered through this office.

A BOOK FOR FRUIT-GROWERS.

The latest book on horticulture to come to our notice is entitled "American Horticultural Manual," by J. L. Budd, Professor Emeritus in Horticulture, Iowa Agricultural College, assisted by Prof. N. E. Hansen, Dakota Agricultural College. The manual is well printed on good paper, and equally well bound, by John Wiley & Sons, New York. Various works on this subject have from time to time been published, but none, perhaps, at the price, \$1.50, have ever been issued better fitted to the needs of amateur horticulturists. It comprises the leading principles and practices connected with the propagation, culture and improvement of fruits, nuts, ornamental trees, shrubs and plants in the United States and Canada. First there is a chapter on seeds and seed-growth, followed by germination, stem and top growth; in fact, every problem that could come up in an orchard or garden is dealt with. Even spraying for insects and fungi is not unthought of. Orders will be taken at this office at the price named.

GOSSIP.

Mr. Edwin Battye, of Gore Bay, writes a very favorable account of the crops of that locality. Considering the heavy rains of the last few weeks, the outlook is good. Hay will be plentiful, but about ten days later than usual. Grass seed has got a splendid catch. Potatoes are looking very promising. In fact, all crops will be up to the average or over. Pasture is extremely good, and consequently cattle are putting on flesh in a very satisfactory manner. Sheep and stockers average about 3c. per lb. live weight.

Mr. Battye also reports a number of sales of pure-bred Shorthorns. Animals of the right type are in demand. During the first week of the present month Mr. Battye sold four of his valuable herd to Mr. Jas. McCutcheon, Tekumoh, Manitoulin, namely: Miss Comfit 10th (imp.), by Rosario =75471=; This heifer won 3rd prize at the Lincolnshire Show in England, 1901. She is a beautiful red, very uniform and of great heart-girth. Ladysmith =38537= and Lady Gordon =38536=, both these heifers are red, very thick-fleshed and short-legged. The heifers are with calf by Royal Emperor (imp.), bred by W. S. Marr, of Uppermill. Mr. McCutcheon bought as a stock bull, Winsome Archie, imported in dam, out of Winsome Beauty 3rd, by Archibald, by Scottish Archer, out of a Sittytan Lavender cow bred by Mr. Duthie. With stock of that class for a foundation we will expect to hear favorably of Mr. McCutcheon's herd from time to time. During the same week Mr. Coats, Barrie Island, also bought the young red bull, Duke of York, out of Matchless of Elmhurst =26450=, by Gordon Prince 29942. Besides these, Mr. Battye has, since he returned from Scotland last September, made the following sales: Mr. Ed. Beck, Gore Bay, five cows and three calves. Mr. Arthur Johnston, Ont., one yearling heifer, Duchess of Gloster, and one calf. Mr. Thos. Ingram, Manitoulin, one cow, Daisy Elgin, and a Crimson Flower heifer, out of Crimson Fuchsia 9th, by Prince Cruickshank 2nd. He also sold one bull to each of the following Messrs. S. Wilson, W. Beckett, J. Brown, and J. Blakey, all of Manitoulin Island. Mr. Battye still has about forty head, and quite a number of the younger individuals of both sexes are for sale.

"A SPLENDID SILO"

BUILT FOR ADOLPHUS HOOPER, AT EXETER, HURON COUNTY, WITH

Beaver Portland Cement

THE RATHBUN COMPANY, 310-312 Front St. W., Toronto, Ont. Sales Agents for THE CANADIAN PORTLAND CEMENT COMPANY, Limited:

EXETER, HURON COUNTY, Nov. 27, 1901. DEAR SIRS: I am pleased to let you know that the cement-concrete silo built for me last fall by Mr. A. E. Hodgert has proved all that he promised. It is eleven feet in diameter and thirty feet high. It cost me one hundred dollars (\$100.00), with a little time on our part thrown in. It was built with your BEAVER BRAND PORTLAND CEMENT, of which I cannot speak too highly. My opinion is that the round concrete silo, built with a high grade PORTLAND CEMENT, is the only satisfactory one to build. Yours truly, ADOLPHUS HOOPER.
