

## Put Your Money in a Real Silo Filler—The "OHIO"

There is no reason why your silo filler should not go through season after season without breakages, trouble, delays and inferior work. It is simply a matter of selecting the *right* silo filler at first.

The secret of the "Ohio's" powerful, almost unbreakable construction lies in its steady improvement for thirty-five years—ever since silo fillers came into use.

You cannot realize the *speed and economy* possible in a silo filler until you know what the "Ohio" is doing.

Almost without exception the men who operated "Ohio" silo fillers last year made the *greatest and most satisfactory profits*. They made the *most profits* because the "Ohio" did the *most work in the least time and at the least expense* for power and crew. The silage was *clean cut in uniform lengths*—free from shreds and leaves—every job was finished with the *least time lost through delays or breakdowns*.

Why not operate such a machine this year? Write us—let us tell you how easily you can do it.

### Late "OHIO" Improvements Eclipse Anything Ever Before Produced

One lever, so sensitive that it operates under finger pressure, *starts, stops or reverses the feed instantly*. Five popular sizes. Blows to any height silo. Cuts all silage crops. Famous Direct Drive, with drive pulley, cutting cylinder and blower fan all on the main shaft. Suitable for pit silos. Easily converted into shredder.

These and many more big features have been making top record profits for "Ohio" owners. The 1914 improved "Ohio" is better than ever.

## 20 to 30% Less Coal

ON account of its distinctive construction the Kelsey Warm Air Generator saves 20 to 30% of coal bills.

A Kelsey has 61 square feet of radiating surface to one square foot of grate.

This large radiating surface is provided for in a battery of heavy, cast iron, Zig-Zag tubes that surround the fire grate.

These heavy tubes store up heat and radiate it evenly.

All the heat from the coal is concentrated in these Zig-Zag tubes, which are right up against the fire. And because of their immense weight they retain the heat for hours after the fire gets low, making constant "firing up" unnecessary.

That is why the Kelsey is the most economical of all heating systems. It saves from 20 to 30% of coal bills.

Our booklet, "Achievements in Modern Heating and Ventilation," tells all about this economical heating system. Send for it.

## Dominion Ammunition

TRADE MARK

Metallics and Shot Shells

### For every kind of Canadian game

There's a Dominion Shot Shell or Cartridge suited for hunting all kinds of Canadian game. Careful selection of materials, accurate loading, rigid inspection and thorough testing, are reasons why the best shooting results are obtained from the use of Dominion Ammunition. Make sure that your next hunting trip is successful. See that your dealer supplies you with Dominion Ammunition.

Dominion Cartridge Co., Limited  
817 Transportation Building, Montreal

Send 10 cents (stamps or coin) for 16 beautiful colored pictures of Canadian game.

### A handy pump for farmers

It is a direct lift pump that can be attached to wind mills, a Fairbanks-Morse Eclipse Engine, or operated by hand.

This is one of the least expensive and most efficient of our high grade farm pumps.

Adapted for lifts from 30 to 125 feet. Altogether an ideal pump for any farm—easy to operate—will keep in good repair for years.

Send for free catalogue of pumps and water systems. If you are interested in farm engines, spraying outfits, lighting systems, power and hand tools, scales or mechanical goods of any kind, full particulars will be sent to you on request. Address Dept. 40
