### FARM HORSES IN HARVEST TIME.

Undoubtedly the time of harvest is a time of strain for the farm horse. The hours are long, and the heat is great. There is no time for pasture, and if there were, the pasture is dry and without flavor. The usual feed is hay and oats, and with the severe strain of harvest heat and heavy work, this dry food is difficult to digest. A tablespoonful of Herbageum added, twice daily, to the horse's food will enable him to thoroughly digest it, and this thorough digestion of food will keep him in perfect health and in high spirits. Herbageum does nothing but assist in the digestion of food. It contains no antimony, salt-petre, arsenic, copperas, resin, aloes, sulphate of iron, or any drug that acts directly on the system.

## Going to the Northwest

DO YOU REALIZE what opportunities await you in the West? Surely you do not. You have not investigated, have not figured, and have no idea as to what the possibilities are. IF YOU DID KNOW you would not continue year after year to work a living, and nothing more, out of the light soil of a little farm on a sidehill. Nor if you are paying rent, would you continue to give the best of your life tilling a farm for another man? You can easily own one of the best farms in the West. All it requires is a small amount of capital, pluck and energy. If you have the pluck and energy, you can get the capital. Write us, or come and see us, and we will tell you how to get the farm.
