WORKMEN'S RIGHTS

In Canada a workman may proceed against his employer under the Workman's Compensation for Injuries Act, and at common law. That means untold annoyance and inconvenience to an employer. An employer is even liable for damages to an employee for injury resulting from the negligence of a fellow employee. Oft-times a workman will get back at an employer in this way. The employee may or may not win. Whether he does or not it means a great deal of anxiety to you as an employer. Let us relieve you of all this. Our liability policies are designed to do this very thing.

Will be glad to explain our plan.

TORONTO FAIR HERE AGAIN.

Upwards of \$350,000 will be spent on new buildings and improvements at the Canadian National Exhibition this year, namely, Grand Stand, \$217,000; Horticultural Building, \$90,000; Railway Exhibits Building, \$40,000, making something like a million dollars spent upon new permanent buildings since the century opened. No other established annual exhibition can show a like record.

It will be worth a journey to Toronto between August 26th and September 9th alone to see the new grand stand that is being erected on the Exhibition grounds. It will be the largest and most complete stand on the North American continent and will cost complete \$217,000. Its capacity and dimensions will be as follows: Accommodation, 15,000 people; length, 693 feet; width, 115 feet; height, 60 feet; area covered, 77,940 square feet or 1.79 acres; weight of steel used, 1,225 tons; seat stringers, 24,200 lineal feet. The steel used if applied to rails would reach from Toronto to Hamilton, a distance of 40 miles.
