TORNADO .- St. Louis, April 20-A tornado Church was blown some distance, and the walls were much injured. The root of a dwelling was

on the opposite shore of the harbor, near Fort Clarence, in the presession of dogs. It was quite fresh when discovered, and could not have been dead much over twenty four hours. The skin and nails appeared slightly water-bleached, only enough to warrant the belief of but a few hours' immersion. Judging from the neatness of its formation and symmetry, appearances tavor the conclusion that the foot is that of a young woman of about twenty years of age, and must have carried nearly a mile and a half through the air.

Smith, in the voicing of their Melodeons, united them to the first rank among this class of instruments. 1 cheerfully recommend them to pur-chasers either for Parlor, Hall, or Chapel use. From B. F. Baker, Professor in the Boston Music Institute, Author, &c., &., and Director of Music at th South Congregational Church. Gentlemen,-1 confess to have entertaineds prejudice against Melodeons before having heard your instruments. But, by your new method of voicing, the monotonous, droning, buzzing sound, has been entirely cured, and in place of it our organ-live tone substituted. The action is prompt, and the tuning is really perfect. If your Melodeons receive the patronage they merit, they must come into very general use.
