Eggs for Hatching

Last week we opened our annual spring department for "Eggs." This is two weeks earlier than last year and is a fair indication of the present demand. A prominent Manitoba poultry breeder told The Guide that 1916 demand is ahead of 1915 and that large as his stock is, it does not look as if he would be able to fill all orders.

HERE IS AN OPPORTUNITY

This means that opportunity awaits any poultry breeder with good stock, to dispose at a profit his surplus breeding stock and to take advantage of the now ever-increasing demand for eggs for hatching. The active selling season will soon be on and the wise man will at once advertise his offerings so that prospective buyers will have him in mind when ordering.

A VALUABLE BOOKLET FREE

While the supply lasts a copy of The Guide's special booklet, "Making Money From Poultry" will be mailed free to anyone writing for it. This book treats of such practical subjects as "Running an Incubator," "Care of Young Chicks," "Poultry House Construction," "Fattening and Preparing Poultry For Market," "Shipping Regulations and Hints," etc. Write for your copy today before the supply is exhausted and it is too late.
