Montreal Live Stock

Montreal, Jan. 24.—About 1,000 head of butchers' cattle, 40 milch cows and springers, 120 calves, 290 sheep and lambs, and 700 hogs were offered at the Montreal stockyards today. The butchers were out strong and trade was brisk at about former rates. Prime beefs went at 5 1/2 to near 6c. a pound, pretty good animals 4 1/2 to 5c. common stock 3 to 4c. and lean canners at about 2 1/2c. per pound. There were about an equal number of milch cows and springers, the former being in active demand at \$30 to \$60 each. Calves sold at 3 to near 6c. per pound. Sheep about 4 1/2c. per pound, lambs 6 1/2c. to a little over 6 1/2c. per pound. Good lots of fat hogs sold at about 9 1/2c. per pound.

Wheat Market Unsettled

GRAIN GROWERS' GRAIN CO.'S OFFICE
WINNIPEG, JANUARY 25, 1910.

Wheat.—There is very little news in connection with the wheat market during the past week. Fluctuations have been rapid. The market declined to as low as \$1.04 1/2, up again to \$1.07 1/2, and closing today at \$1.09 1/2 for the May option. Cash No. 1 Northern has been selling at a spread of 4 cents under the May; No. 2 Northern 5 1/2 to 6 cents under, and No. 3 Northern 7 1/2 to 8 cents under. There has been a good demand right along for No. 1, No. 2 and No. 3 Northern at these spreads under the May price. There has been some wheat worked

for export, but not a great deal, and we may say export demand has been very quiet. The flour mills are buying our wheat in considerable quantities; in fact, they are taking nearly all of the better grades of wheat, especially stuff being shipped over the Canadian Pacific Railway. This, with the demand from Ontario millers, has kept prices fairly steady and gave us a good demand for our cash wheat right along. The big importing countries are now being supplied with their native wheats. These wheats in the past have not been in a condition for milling, but in the past two weeks or so, considerable threshing has been done and farmers have been marketing their grain and this accounts for the poor export demand we have had from these countries.

It seems to be considered that the Argentine crop will not be a big factor in the price-making of the world's markets this year, as it is more than likely that this country will not export as much as she did last year by probably thirty million bushels. On the other hand, India has a good crop as has also Australia and Russia, and with the extra shipments from these three countries, as well as the extra shipments from America (which means Canada as well as the United States) the deficiency in the Argentine is far more than made up, and as prices now are at a good high point we do not look for much higher values.

Winter Wheat in the United States is, however, a factor to be taken into consideration. Up to the present time we have had nothing but splendid reports of this crop, but the time is coming when we will in all probability get reports of damage to this crop, and should we get serious damage to the United States Winter Wheat crop, prices could very easily go much higher. On the other hand, should this crop continue to show good promise, we should see lower prices. We advise making sales of Cash Wheat on all of the good strong points of the market.

Oats have ruled steady and have had very little change in price. Barley has been in fairly good demand with advancing prices.

Flax has had tremendous fluctuations, and it is useless to predict what this market is likely to do, as flax might go up 20 cents per bushel higher or it might decline 50 cents, and it could do either within a few days.

The growers of the seed that is being introduced into western Canada by the Garton Pedigree Seed Co., Winnipeg, will be interested to know that the Garton Co. has offered a splendid trophy valued at \$100, for the best two bushels of oats grown from seed purchased from them last spring. The winning of the cup on the occasion of the forthcoming provincial grain show at Regina, which begins on the 25th inst. will not determine its final ownership, as the company has stipulated that it shall be offered annually until it shall have been won three times by one person, when it will become his property.

The conditions of the competition are that only grain grown from seed bought from the Garton Co. in the spring preceding the show at which the grain is exhibited may be shown in competition for the cup.

The Garton Co. is to be commended for their advertising acumen, and their customers are fortunate in having this extra competition provided for them.

In addition to the cup, cash prize amounting to \$103, including a \$2 championship, are offered for oats in two sections of the Provincial Seed Grain Show. The Garton Cup is offered in class 2, section 4, and competitors for this prize should note this fact when making their entry.
