YOUR BLOOD IS TAINTED

ULCERS, BOILS, SWOLLEN GLANDS, BLOTCHES, PIMPLES, AND ALL SKIN AND BLOOD DISEASES ARE COMPLETELY CURED BY THE NEW METHOD TREATMENT

We desire to call the attention of all those afflicted with any Blood or Skin Disease to our New Method Treatment as a guaranteed cure for these complaints. There is no excuse for anyone having a disfigured face from eruptions and blotches. No matter whether hereditary or acquired, our specific remedies and treatment neutralize all poisons in the blood and expel them from the system. Our vast experience in the treatment of thousands of the most serious and complicated cases enables us to perfect a cure without experimenting. We do business on the plan—Pay Only for the Benefit You Derive. If you have any blood disease, consult us free of charge and let us prove to you how quickly our remedies will remove all evidences of disease. Under the influence of the New Method Treatment the skin becomes clear, ulcers, pimples and blotches heal up, enlarged glands are reduced, fallen hair grows in again, the eyes become bright, ambition and energy return, and the victim realizes a new life has opened up to him.

YOU CAN ARRANGE TO PAY AFTER YOU ARE CURED

Hicks' Weather Forecasts For July.

A Reactionary Storm Period is central on the 2nd, 3rd and 4th, with the moon on the celestial equator and at first quarter. By the 2nd expect very marked rise in temperature, falling barometer and vicious electrical storms in western states. During the 3rd and 4th these storms will pass eastward over the country, preceded by excessive warmth. In eastern parts of the county a "hot wave" and Fourth of July thunder storms should not surprise the people. In most sections west of the Mississippi river, storms will have passed eastward, leaving fair and more pleasant weather for the "Glorious Fourth."

A Regular Storm Period covers the 6th to 10th, with probability of being prolonged over the full moon on the 11th. The Venus influence is still dominant at this period, which fact may reasonably excite hopes of rain over many sections of the grain-growing regions. We believe that a very serious lack of general rains will be upon very wide sections of the great agricultural regions to the northwest, west and south, from the middle of July until late in September. Those who figure and plan to make crops at the earliest possible part of the summer, will, we predict and advise, come out winners. A possible reaction to fair and cooler may come on and touching the 10th and 11th.

A Reactionary Storm Period centers on the 12th, 13th and 14th, with possibility of threatening conditions holding over from the preceding storm period. Falling barometer, increase of temperature, with cloudiness and moderate rains, will be due Wednesday the 12th to Friday the 14th, all followed by change to fair and cooler weather, up to the 16th. Do not forget that all storms and weather changes progress from the west to the east; they do not strike the whole country at the same time or day. A Seismic period is central on the 11th, affecting the 4th to the 14th.

A Regular Storm Period begins on the 16th, and extends to the 23rd. We prolong this period to the new moon on

the 25th for the reason that storm periods are often drawn forward in their culmination by pending new moon dates. A probable storm crisis will fall on the 19th, 20th and 21st, causing rain, wind and thunder, leaving high temperature and threatening conditions to continue over the 23rd.

A Reactionary Storm Period falls on the 24th, 25 and 26th. This period falls at the center of the Mercury period, at the close of the Venus period, and at new moon, in perigee and at extreme north declination. Expect excessive warmth at this time, with low barometer and fierce thunder gusts. Squalls and local downpours will visit localities, but far-reaching, general rains are not indicated. Mercury cloudiness, and moderate drizzle may touch most parts for several days, including much of the Mercury period. A seismic period of very positive character extends from the 22nd to 28th, central on the 25th.

A Regular Storm Period is in progress as July goes out. It is central on the 30th, at the crisis of the Mercury period, with the moon on the celestial equator. A low barometer, with fitful south winds and high humidity, from the 23rd to August the 2nd, should be admonitions of violent storms. Centering on and next to the 30th, great, black, blustering storm clouds, with dangerous gusts of wind and thunder, will be natural. Heavy local downpours of rain will strike many limited localities.

Surs Signs

Of Kidney Trouble.
If your back is constantly aching and if you experience dull shooting pains, your kidneys are out of order. If your urine is thick and cloudy or your passages frequent and painful, your kidneys and bladder are out of order. Neglect quickly brings on rheumatism, diabetes, lumbago, sciatica and etc.

Mrs. John Wagner of 110 Hollis St., Halifax N. S. says: "Dull shooting pains would catch me across the small part of my back and extend into my shoulders and neck, often causing me to suffer with severe headaches and spells of dizziness. Spots would dance before my eyes and everything would turn black. I would fall to the floor and be unable to get up again without assistance. A friend told me of Booth's Kidney Pills and I began their use. The first box gave me relief and I am now well and strong."

Postpaid from the proprietors The R. T. Booth Co. Ltd. Fort Erie. Sold and guaranteed by John Coates.

Alfalfa.

Just about now and a week or two later, is the time for seeding alfalfa. It is a crop that every farmer should grow. Nothing has done so much to build up the agriculture of the western and south-western States than this one crop. We hear more about corn because its annual yield can be measured in bushels. It is an important factor too, but we doubt if it is as important as alfalfa. Canadians have been slow in taking it. But every year sees the number of farmers who have become converted to alfalfa largely increased. It is not a pasture crop, especially in this country, but as a soiling crop and one for providing abundance of good fodder it cannot be beaten. There is this about it too, a farmer does not have to seed a large acreage of alfalfa to learn of its value as a fodder producer. A five or ten acre field, properly looked after, will supply more good food for live stock than any other crop that can be grown. The live stock man who has neither alfalfa nor corn to fall back on, is, as a rule, in poor shape for winter feeding. Corn silage, alfalfa hay, and a little grain make an excellent ration for cattle, whether kept for milk or beef production. As a soiling crop alfalfa comes in early. And if peas and oats are sown early the farmer can, with alfalfa, have a succession of supplemental feeds during the summer that will carry him through till the corn is ready. Alfalfa is a crop for the farmer to tie up to.

Must Not Allow Gambling.

Agricultural societies must this year beware that they yield not to temptation to permit gamblers to operate at their annual fairs. For some years there has been a provision in the Act respecting agricultural societies to the effect that societies permitting gambling at their fairs shall not receive any grant from the province. Mr. J. L. Wilson, superintendent of agricultural societies, announces that this year this section of the Act will be rigidly enforced, and that a crusade against gambling will be inaugurated by the Department. Mildmay fair has never been troubled in this particular, as the directors would not countenance any games whereby their patrons could be fleeced.

WALKERTON.

A woman connected with Howe's circus sold a lot of immoral pictures in the side show here. Those who were foolish enough to buy had better destroy them. Outside of the demoralizing influence, these pictures may get the owners into the law courts.

The marriage of Mr. Amos Pletsch to Miss Lavina Dippel was solemnized at the home of the bride's parents, Mr. and Mrs. Henry Dippel, Carrick, on Coronatiq Day, Rev. Mr. Geo. Brown of Zurich, officiating. The young couple we understand, will take up their abode in the West.

Falling off a load of gravel while doing road-work near Cargill on Tuesday afternoon, Mr. Robt. Brenair of Brant met his death, the team starting up and drawing the load over him and breaking his neck. He was father-in-law of Mr. Gar. Johnston formerly of Walkerton.

The Knechtel Furniture Company are preparing timbers for the erection of a large three-story brick addition to their factory here. The new structure will cover a ground space of 200 ft. by 60 ft., and will be largely used as a store house, thus enabling the company to manufacture further in advance and on a much bigger scale. Several new machines will be added and more hands employed. The company have also contracted with the builders of the proposed dam for an additional h.p., to assist in driving their machinery here.

Seven head of cattle belonging to Geo. Flach got into Jas. Gowanlock's garden on Sunday morning last and made a lunch off his cabbage and corn patch, and otherwise carried disaster into his vegetable crop. Discovering the animals knee-deep in the act, the owner of the premises herded them lovingly together and hurried them off to the pound, where they remained until Mr. Flach came forward with \$10.50 and redeemed them. Of this amount \$2.00 was assessed as damages to the garden, and the balance of \$8.50 was mulcted as poundage fees. As will be seen the raid was disastrous both to the finances of the owner of the herd and to the garden of the victim.

Liquor at Teeswater.

Provincial Constable Phippen in company with three Provincial Detectives visited Teeswater on Saturday last and as a result of their visit eleven charges of keeping liquor on the premises and selling the same have been laid against the proprietor of the Vendome hotel and two charges against David Calpar. Constable Phippen and the detectives had a rather thrilling experience on Saturday as a mob of men commenced firing of revolvers and throwing stones when they commenced the work of searching the hotel. Mob law is no good in this country and we understand the officials intend making an example of some of the parties who "took part in this disgraceful affair. Constable Phippen again visited Teeswater on Monday in company with Provincial Inspector Ayerst and raided a "blind pig" and secured a quantity of liquor. On Tuesday Mr. Phippen went to Kincardine and laid the several charges before Magistrate Barker, who will hear the cases at Kincardine on June 30th.—Wingham Times.

When not to Smoke.

"Smoking immediately after a meal, which is usually condemned and consistently practised, is not necessarily injurious. Indeed in some cases it may prove beneficial. The desire for tobacco felt by many after a hearty meal is no doubt due to its stimulating influence on gastric secretion, and the comfort that follows indulgence, is, in part at all events, attributable to the extra flip given digestion." Such at any rate, is the view of a medical correspondent who writes to the "Lancet" on the subject. And because in many cases tobacco gives the extra flip to digestion, smoking after meals is preferable to taking a liqueur, the latter being a direct irritant. There are many cases, however, in which smoking should be avoided immediately after meals, and in some cases discontinued altogether. People who after a hearty meal, suffer from that distressing feeling known as distension, should postpone indulgence in tobacco until some other time after the meal, when the digestion is well advanced, and if they suffer from excessive acidity of the stomach should discontinue altogether.

Smoking just before meals is to be deprecated, while smoking just before going to bed is often followed by insomnia, because the stomach gives rise to a sensation of hunger. This distressing consequence may be averted by taking either some light food or a little bicarbonate of soda before retiring to rest.

Furniture Sale.

Now after housecleaning you will no doubt need some nice furniture for your home to make it more comfortable and attractive. I am having a special sale during the month of June. If you want anything in our line it will pay you to call and secure some of the bargains at J. F. Schuett's Furniture Store

Best of Flour

Half a dozen different Brands.

Just received a carload of Bran and Shorts. Special prices in carloads.

Bran at \$1.10 per cwt., or \$20 per ton.

Swimming Against the Stream

Is like trying to do a successful business without advertising. And it is not expensive to gain desirable publicity by the use of printers' ink. Our Classified Want Ads, cost little and are read by nearly everyone. Try them as a system, tonic for your business.

Two young bulls fit for service, and females all ages, some young cows with calves at foot, and in calf again to Bright Lord—6421.

A nice bunch of ewe lambs, and would also price 6 or 8 ewes, bred to a 1st prize ram. If interested call and see them and get prices.

JAS. G. THOMSON.

RHEUMATISM AND COMMON SENSE

Father Morrissey's No. 7 Eliminates the Uric Acid.

Many treatments will relieve the aches and pains of rheumatism, but there is only one way to cure that dread disease. The common sense method is to remove the cause, and the effects will soon disappear. Rheumatism is caused, as is well known, by the failure of the kidneys to perform their intended work of filtering the uric acid out of the blood and eliminating it from the body through the bladder. When the kidneys go on strike, the uric acid is carried to the joints and tissues, where it causes stiffening of the muscles, and the excruciating pains of rheumatism.

Father Morrissey, the learned priest-physician, after much research devised a prescription which would act directly on the kidneys, and by toning them up to vigorous action, cause them to clear the system of the uric acid. This remedy, known as No. 7, has been used successfully in thousands of cases. Father Morrissey's Linctament will bring relief from the effects of rheumatism, while his No. 7 Tablets will get to work on the cause and in due time cure the disease.

Why suffer from this painful and troublesome affliction, when by using the common sense methods originated by Father Morrissey and successfully followed for years, it is possible to aid Nature to restore you to health?

If you are not yourself rheumatic, you doubtless know of some one who is, and who would be glad to learn of a treatment which has such a consistent record of cures. It is easy to take and sure to benefit and ultimately cure rheumatism. 50c a box, at your dealer's, or from Father Morrissey Medicine Co., Ltd. Montreal, Que.
