UNIQUE COMPASS.

A silver mounted compass which is nearly 200 years old and is fitted with a sundial, also longitudes and latitudes of important cities and ports, was presented by a Miss Buckley, a passenger on board the Canadian Pacific liner Metagama, to Mr. E. Cox, the third class steward, as a token of grafitude while on a

as a token of gratitude while on a voyage to Canada.

Mr. Cox states that the Squire of the parish of Weston, Norfolk, presented the compass many years ago to the Rev. Buckley of Weston, who was Miss Buckley's grandfather and to the Rev. Buckley of Weston, who was Miss Buckley's grandfather, and when he died he left it to her. The compass is in a well-preserved green shag case, inside which is the following inscription: -

> "This compass and dial was given me by Sir George Oxenden in 1773 At having been Sir Basil Dirwelds, made at Paris about the year 1727 H. H."

When opened the sun dial and compass is on the face, while on the back of the compass are the longitudes and latitudes.

It was found a very valuable in-strument for carrying in the old

CASE, COMPASS & DIAL

C. P.O.S. LINER NEW

THE EMPRESS OF CANADA AFTER BEING LAUNCHED.

The Empress of Canada, a twin screw geared turbine oil burning passenger liner, built to the order of the Canadian Pacific Ocean Services, Limited, especially for their trans-Pacific service, was recently launched at the yards of the Fairfield Shipbuilding & Engineering Co., Limited, Govan, Scotland.

The christening ceremony, which was performed by Mrs. G. M. Bosworth, the wife of the chairman of the Canadian Pacific Ocean Services, Limited, went through without a

The ship is 653 ft. long, 77 ft. 9 ins, wide and has a depth to the bridge deck of 53 ft. 6 ins. Her gross tonnage is about 22,000 tons, and she is arranged to carry about '90 first class, 106 second class, 238 third class passengers, and 547 of a crew. Of the cargo spaces, a large portion has been fitted for the carriage of silk. The ocean speed is about 21 knots. The vessel is built to the highest class of Lloyd's register, to full Board of Trade requirements and sub-divided in full accordance with the requirements of the Bulkhead convention. A complete system of telephones with a central exchange is fitted to the special and private suites and various offices, etc.

The dining saloon is on the upper deck and will accommodate 325 persons, a large reception room is situated forward of the dining saloon with passenger elevator at the fore end, on this deck also is a swimming pool 30 ft. long by 18 ft. wide, and a gymnasium.

Throughout the vessel special attention is everywhere given to the fact that the Empress of Canada is to serve in a semi-tropical climate; public rooms are therefore large and airy and the ventilation amply arranged. The maiden voyage of the Empress of Canada will be a tour of the world, starting from Liverpool, March 15, 1921.
