AERTEX CELLULAR UNDERWEAR

The chief function of underclothing is to assist in maintaining the normal temperature of the body. The normal temperature is about 98 - Fahr.-and a deviation from this is a recognized sign of disease.

It is evident that clothing to be healthy must not interfere with the action of the skin—it must be porous—it must be a good non-conductor of heat to prevent the undue access of out heat or cold as well as to prevent the escape of the heat generated by the body. Aertex Cellular is easily washed and does not shrink. It is light and comfortable to wear and does not irritate the most sensitive skin. It is very durable.

Shirts Short Sleeves—Trunk Drawers—\$1.75 ea.

SUCCESSFUL "ZEP" COMMANDER GONE.

Amsterdam, Aug. 8.
Captain Strasser one of Germany's most successful Squadron Commanders in Zeppelin attacks, and the entire crew of the Zeppelin which led the attack toward the British East Coast Monday night, perished when the dirigible was shot down over the North Sea.

JAP CAPT. FACES DEATH RATHER THAN DISGRACE.

A Pacific Port, Aug. 8.
Captain Y. Yamamoto, master of the Japanese steamer Canada Maru which was recently pulled off the rocks ended his life early yesterday, because it was believed here he feared the disgrace which he thought was upon him for allowing the big boat to go ashore during a heavy fog July 31.

FARTHER TROOPS ARE ACROSS THE VESLE.

With the American Army on the Marine Front, Aug. 7.
Under an inferno of shrapnel and machine gun fire, and waves of gas, the Americans forced their way over the Vesle river last night and early this morning, while rain drenched the batM gained positions on the American left and the joint movement has straightened out the line from a point west of Bazoches to Fismes. The Germans lost considerably in casualties.

Berlin, Munich and Dresden are quarrelling over rations. The other cities claim that Berlin has the larger ration. Berlin says its excess of rations consists entirely of bones. Munich, in reply to this, unequivocally accuses Berlin officials of lying.

A man in Texas has invented a process for making paper pulp from the stalks of corn cotton and intends to make practical use of his discovery by establishing a mill somewhere in his State. The process seems to have the double advantage of relieving the paper shortage and preventing the breeding through the winter of insects which live in the stalks of cotton and harm the new crop.—(Textile World Journal.)

THAT AWFUL CHILD.

The Bible says they went into the ark two by two, doesn't it, auntie?
"Yes, dear."
"Well, who went in with you?"
