One Year's Business.

My first year in business in Chatham will be completed this week, and a very successful year it has been. The increase month after month is larger than I ever anticipated, and the most satisfactory thing about it is the fact that while adding new customers right along I have retained all the old friends of the store. To their trade and recommendation I attributed much of the success of the past year. I appreciate their good-will and take advantage of this opportunity to thank them for it. No effort will be spared to merit a continuance of it during the years to come.

We celebrate our first anniversary with a general remodeling of the interior of the store. The new furnishings in oak make it one of the handsomest stores in this section. Further improvements are in contemplation during the coming year, and altogether it will give us a store fully equipped to meet the demands of our increasing trade.

I trust that during the coming year many who have not as yet traded here will give us an opportunity of showing them the character of our service. We believe that one trial will convince them of its superiority.

Will You Give Us a Trial?

You may rest assured we will do all in our power to make your trial a satisfactory one.

Mr. Harold Jarvis says that Owen Smith is beyond comparison the best character, delineator and humorist Canada has ever had. His latest composition, "Some aspects of testy-ness," a musical monologue after the style of George Grossmith, is the best hit he has ever made. Scotch concert, Dec. 10th.

E. J. MacIntyre assures The Planet readers that this year breaks all previous records as regards goods having goods laid away for Xmas. He says there are more and better articles than any previous year, which is a certain indication of better times.

A banquet was given in Wallaceburg Thursday night to Mr. Rose, the builder of the large sugar factory in that place. David Gordon was chairman and J. S. Fraser vice-chairman.

Those interested in the Chatham Oil Co. met Thursday and signed the stock list. It was arranged to get hold of the drilling rig which the old company used at Bothwell, and the contract has already been let for a number of wells.

The Property committee of the City Council went over and inspected the police station yesterday. Chairman Taylor and his colleagues were of the opinion that it was a pretty poor shack. They didn't know whether it would pay to go on and fix up the old building or not. It was decided to meet with the Police Commissioners and confer in regard to this matter, and the two civic bodies will meet Monday at four o'clock.

Mr. Harold Jarvis says that the old favorites, in the old familiar Scotch songs, are better received and better appreciated than ever. We will have three of the old favorites at the Scotch concert next Wednesday night, some of the old songs and some new ones. If you want to hear a really delightful concert, one that will linger in your memory like a sweet dream, come out and hear them.

The old style of silver mountings on ebony toilet articles, which not only look cheap when new but turn black and come off when in use a short time. Now York's four hundred originated the idea of having the engraving done direct on the ebony and filled with white enamel which gives an artistic effect and lasts forever, but it requires an artist and special tools to lay out and engrave large heavy monograms on the ebony. If you wish to see some of this beautiful work, drop into VonGuten Bros., who showed one of our reporters some of this work, and we predict a large sale for them, but orders must be placed early, as it takes time for the enamel to harden.
