## 125 Women's New Coats 7.75 Excursionists Sale Special

Many of them Worth \$20

—A final disposal of Women's Coats is scheduled for Monday at Cairns. There are four large racks embracing 125 of this season's new Coats.

—It has been the biggest Coat season which we have had since 1912. Now comes a clearing-up after the rush selling of the previous few months.

—Please bear in mind that each and every Coat is up to the minute in style—every one of them this season's productions—many of which have not been in the store more than four weeks. A considerable number were secured greatly below the market value because the maker wished an outlet for a surplus stock.

—Included one will find tweeds, diagonals, curl cloths, zobelines, astrachans, etc., in navy blue, black, tan, grey, fawn and novelty mixtures. They are designed in full-skirted models having belted backs and convertible collars. All are perfectly made and splendidly finished. Practically every size is included.

—Under ordinary circumstances one would pay \$15, \$18, or \$20 for these Coats. Take your choice on Monday for \$7.75.
