### TO SEEK OIL ON PICTOU ISLAND

possibilities of a gas and oil development on Pictou Island in Northumberland Strait off the mainland of Nova Scotia, were seen in the acquisition of a fifteen acre prospect lease by Hugh McKay, a former Pictouan and recently a

member of the Geology Faculty of Oklahoma University. Mr. McKay who is understood to have large oil and gas interests in the United States, has made this branch of geology a special study and believes he has found oil and gas bearing strata on Pictou Island in such quantities as to make a large development probable.

### When Women Become Partners

There will be firm names in the future—and in the near future, at that—which will read: "John Brown & Daughters," where they now read: "John Brown & Sons." Women are no longer in business just for experience or "for the fun of the thing." They are in business these days and coming days to "stay put" as our neighbors to the south would say. As they make good they will acquire partnerships. And why not? Perhaps Lady Astor, first woman member of the House of Commons was right. She once said:

"Men are the most helpless creatures in creation. Why, of course they are, they all know it. That is why we love them. A woman only loves the things she can help. Men are all wrong. They think we want to be their masters. Not at all. We want to help them. We have helped them in their homes, and now we are going to help them in their workshops. If we can bring these spiritual qualities into public life, then we have not entered public life in vain."

### QUITE APPLICABLE

The following extract from the London Daily Express could be applied to this province and is particularly applicable to Newcastle. "The litterer is a public nuisance who ought to be abolished by public opinion. It is selfish as well as vulgar to deface the paths and lawns and flower beds in our public parks with rubbish. Matches, cigarette ends, paper, orange peel, banana skins, bottles, tins, and cardboard boxes quickly convert a paradise into an inferno. The habit of using the landscape as a dustbin makes nature hideous. Many motorists are callously careless, their picnics desolate the grass. If callous selfishness could be abolished by sea and land the many would not be vexed by the thoughtlessness of the few. Don't throw away your debris! Don't carve or write your name anywhere! Be civilized!"

## Tonic Treatment For Indigestion

### The Surest Way to Relieve Stomach Trouble Through Dr. Williams' Pink Pills

When the stomach is feeble and food lies in it undigested, the poisonous gases distend the walls of the stomach and cause serious interference with the other organs, especially with the action of the heart and lungs. These poisonous gases have other ill effects. They are absorbed by the blood and so weaken and corrupt it as to cause aches in remote parts of the body and the formation of unhealthy tissue everywhere. Experience shows that these troubles vanish just as soon as the stomach is made strong enough to digest the food. In other words, it needs a tonic that will enable it to do the work of changing the food into nourishment. The tonic used ought to be one that will agree with the most delicate stomach and this is exactly what Dr. Williams' Pink Pills do.

Here is a bit of convincing proof given by Mrs. Chas. Ladner, Elerslie, P. E. I., who says:—"For some years I was a sufferer from stomach trouble. Everything I ate caused distress, sour stomach, and belching. I could not eat meat or potatoes, and I grew weak and very nervous. No medicine seemed to help me until I was persuaded to take Dr. Williams' Pink Pills, and these simply worked wonders. I took the pills faithfully for a couple of months, by which time every symptom of the trouble had disappeared, and there has not since been the slightest symptom of stomach trouble. No wonder I praise Dr. Williams' Pink Pills."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## ASTROLOGER SEES REPUBLIC IN GT. BRITAIN

London, Aug. 18.—Interrogation of the Heavens, in which Miss Belle Bart, a New York astrologist, specializes, has just revealed an amazing future for Great Britain, which includes nothing less than a British Republic, with Lloyd George as Churchill at its head.

Miss Bart, who is Director of the New York Academy of Astrology, has just arrived in London to read the horoscopes of politicians. From the latter, her advance information shows the following world-stirring events in store for Great Britain: Lloyd George will come back. Stanley Baldwin, British Premier, will not. Ramsay Macdonald might—but only for a short time. Winston Churchill has come to stay. Lord Balfour will be powerful until his dying day.

England will abolish free speech Sept. 29 this year, and the British Republic will dawn in 1928 with Lloyd George and Churchill at its head. The British Republic will be the eventual result of a coal strike, according to Miss Bart, who says that on Dec. 14, 1925; there will be an open conflict in the coal industry. A strike is inevitable, though it might be modified by the actions of a man at present not in the public eye, but the power behind the Throne.

### NEW HALL DEDICATED

The new community hall at Ferry Road was formally opened last Friday evening. A delightful program of songs, music and speeches was carried out before a large audience, after which an enjoyable dance was held. Mayor Loggie of Chatham was Chairman and a dedication speech was given by Mr. W. B. Snowball. M. P., Mayor Russell of Newcastle also addressed the gathering. The new hall is a modern structure and will fill a long-felt want to this enterprising community.
