St. John's Municipal Council.
PUBLIC NOTICE.
The attention of the public is called to the following sections of the St. John's Municipal Act, 1921:

Section 243.—The Council shall immediately after the first day of every month and the first day of July of every year take proceedings to recover amounts due for taxes, rates, assessments, or license fees for the previous six months as hereinafter provided:
For the purpose of enforcing payment of the said amounts it shall be lawful for the City Clerk to issue writs of distress, and seize and sell any goods or chattels of the person or company by whom such amounts shall be due. The power to issue writs of distress in this section shall not prevent the City Clerk from proceeding at law by or otherwise for the recovery of the said amounts or any of them, and it shall be lawful for him to discontinue to sue at the same time for the same amount.

Section 244.—The bailiff or collector to whom such warrant is directed shall forthwith execute the same as he is commanded.

Section 245.—The property distrained under such warrant may be removed to any place for safe-keeping, or impounded on the premises;

If the distress is sold for more than the amount due to the City, together with the charges of taking, keeping and sale, the surplus shall be returned to the owner, together with an account in writing of the sale and charges;

The bailiff or collector shall make a return to the City Clerk of property distrained under the warrant within the time therein limited.

Section 246.—The said warrant of distress shall be issued under the seal of the City Clerk, and directed to the bailiff or collector, and made returnable in such time as he shall see fit, and shall be in the form in Schedule B to this Act with such variations as circumstances may require.

COMMON SENSE
Good judgment, loyalty to the best interests of Newfoundland has characterized the 44 years' service of the Telegram. They showed the same qualities when they decided to erect the Telegram Building of Pelly's Brick. Time has proved the wisdom of their selection of building material, and the fierce storms that have swept up from the Arctic regions only prove the indestructibility of Pelly's No. 1 Hard Brick.
