### Home Hints.

It is not at all difficult to keep let-  
tuce crisp and firm, even for several  
days; but the secret is thorough chill-  
ing, not merely soaking in water be-  
fore a meal. Do not put the head of  
lettuce in the icebox and then remove  
the number of leaves needed for your  
salad and trust to an immersion in  
cold water to make them crisp. In-  
stead, pull the head of lettuce entirely  
apart the minute it comes from the  
market. Wash all the leaves thorough-  
ly, then shake in a colander and put  
the loose leaves in a paper bag, plac-  
ing the bag near the ice. Each leaf will  
keep crisp and firm and all the leaves  
can be used, though you may have to  
replace the paper bag occasionally  
when the paper becomes torn from  
moisture.

When cream will not whip, add the  
white of an egg to it. Let both the  
cream and egg be thoroughly chilled.  
Then try again and it will whip easily.

A teaspoonful of vinegar beaten into  
beaten frosting when flavoring is ad-  
ded will keep it from being brittle or  
breaking when being cut.

To beat eggs very quickly add a  
pinch of salt.

When using molasses that is not as  
dark as desired for ginger-bread or  
cookies, add a tablespoonful of melted  
chocolate to molasses and spices. This  
not only gives the desired effect in  
color but flavors as well.

Finely pleated bands of plain silk  
make a very effective trimming for  
printed frocks, whether of cotton or  
silk.

To keep raisins from sinking in a  
cake or bread, they may be creamed  
with the butter, then the sugar added,  
and the regular process of bread or  
cake-making proceeded with in the  
usual order. The cake or bread will  
be darker and richer looking when  
this method is employed.

Before heating milk in a saucepan,  
rinse the pan in cold water and it  
will not scorch so easily.

**Forty-Three Years in the Public  
Service—The Evening Telegram**

### PUBLIC NOTICE.

Tenders will be received at the  
Office until noon on Monday, the 21st  
day of August, 1922, for two motor  
Steamers to ply between St. John's  
Nfld., and the West Indies.

The steamers to be classed X 1  
A1 at Lloyd's (England), and to have  
a speed of at least 12 knots. They  
must have about 2000 tons gross  
weight capacity, be fitted with the  
modern improvements, and have the  
class passenger accommodation for  
20 persons.

Under the proposed service a  
steamer will leave St. John's every  
week, calling at Havana, Santiago,  
Porto Rico, Martinique, Barbadoes,  
Trinidad and other islands in the  
West Indies, making one call and  
trip at the above ports. The service  
to be continuous throughout the  
whole of each year, and the contract  
to be for a term of 5 years to be  
computed from the date of com-  
mencement of the service. The service  
to start with one steamer in Octo-  
ber, 1922. Tenders to specify the  
rate per round trip at which the  
service will be performed, which rate  
will also cover the carriage of mail  
by the said steamers. Envelopes to  
be marked "Tenders for Steam Ser-  
vice to West Indies."

Further particulars may be ob-  
tained on application to this Department.  
The Government do not bind them-  
selves to accept the lowest or any  
tender.

### TO-DAY'S MESSAGES.

#### LOGS ON FREE LIST.

WASHINGTON, D.C., Aug. 17.  
Three changes were made in the  
Tariff Bill yesterday, Senator Kellogg,  
Republican, Minnesota, finally win-  
ning his fight to place on the free  
list logs of fir, spruce, cedar or west-  
ern hemlock, paving posts, railroad  
ties and telephone, telegraph, trolley  
and electric light poles, and pickets,  
palings, hoops and staves of wood of  
all kinds.

#### AT WESTMINSTER ABBEY.

LONDON, Aug. 17.  
The funeral of Viscount Northcliffe  
was solemnized at noon today in  
Westminster Abbey. Seldom has the  
last tribute to any Englishman, whose  
position was wholly personal and un-  
official, gathered such an assembly.  
French and American Ambassadors  
were among the host of mourners,  
chief of whom was the widow, Vis-  
count Northcliffe's aged mother, and  
his six brothers.

#### FREE STATE SUCCESSES.

DUBLIN, Aug. 17.  
Troops of the Provisional Free  
State Government are continuing their  
successes against Irregulars. Latest  
reports tell of the capture of Mallow  
and Mitchell's Town. Government  
troops are now advancing on Dun  
dalk, the news of the capture of which  
has yet to be confirmed.

#### KIND OF HOPEFUL.

CHICAGO, Aug. 17.  
An end to the strike of the Big Four  
Transportation Brotherhoods on west-  
ern railroads, an improved outlook for  
peace in the New York Conference to-  
day, shootings, bombings and burnings  
were high lights in the nations rail-  
way crisis during the last twenty-  
four hours.

#### MARKING TIME.

HALIFAX, Aug. 17.  
Operators and strikers in the Nova  
Scotia coal mining dispute were mark-  
ing time this morning. Two com-  
panies of the permanent forces com-  
pleted the occupation of New Aber-  
deen, Cape Breton, last night, without  
any untoward incident, and two com-  
panies of militia were being held in  
readiness at Amherst to proceed to  
Springhill. A move for settlement is  
anticipated shortly, with the conven-  
ing of the newly elected executive,  
under the presidency of Dan Living-  
stone.

### The British Way.

In spite of many difficulties the re-  
vival of business in Great Britain is  
marked. It is a remarkable commen-  
tary upon the return of commercial  
prosperity in Britain that in June,  
1922, the merchandise of Great Brit-  
ain in the shape of exports and re-  
exports amounted to \$80,000,000  
against \$48,000,000 in June, 1914, and  
that imports similarly increased from  
\$58,000,000 in 1914 to \$84,000,000 this  
year. Some of the increases are, of  
course, nominal—are due to the fact  
that the pound has not yet par gold  
value. Nevertheless, the showing is a  
remarkable one. It reveals how Great  
Britain has come back through hard  
work and the intelligent application  
of human energy. In the war British  
people did not dishonor their great  
national traditions. In peace, despite  
senseless disturbances of industry by  
those of a Bolshevik spirit, they again  
run true to form. The excess of im-  
ports in June was \$23,000,000, or ap-  
proximately \$100,000,000 at the pre-  
sent value of the pound. This means  
that Great Britain, through her ship-  
ping, her insurance and interest on her  
investments abroad, is once again in  
the way of prosperity. She has not

borrowed—on the contrary has rather  
been lending—yet through her invis-  
ible credits she is able to pay for \$100,-  
000,000 worth of goods.—Morning  
Chronicle.

### Reading Your Own Hand.

By LADY DIANA MELEN.

A great palmist, by name D'Arpen-  
tigny, says that there are seven classes  
of hands. "The elementary, or  
large palmed hands, which are the  
lowest type, the active or spatulate  
hands, the artistic or conical shape,  
the useful hand which is square, the  
philosophic or knotted hand, the  
psychic or pointed hand, and the  
mixed hand. The important point in  
the elementary hand is the propor-  
tionate length of palm and fingers,  
the longer the fingers the better the  
hand, the larger the palm the more  
the animal rules."

In the spatulate hand the palm is  
broader at the base and the fingers at  
the tips. Discoverers, inventors, and  
energetic people have such a hand.  
The artistic is one of the most attrac-  
tive types, the palm being slightly  
tapering, the fingers broad at the

### Shipping Notes.

S.S. Digby arrived at Halifax at 10  
p.m. Wednesday, after a run of 40  
hours.  
S.S. Maud has cleared from Lomond  
with 1,690 cords of pit props for Hull,  
England.
