**Nothing Like These Results
A Year Ago or Now**

It is no trick to build a car that will go 65 or 70 miles an hour if it has a power plant big enough to haul a freight train.

It's a great achievement to get over 70 miles an hour out of a motor of 3-inch bore and 4 1/4-inch stroke, with gasoline mileage safely above 20 miles per gallon.

And that's the wonder of the Chrysler Six—a wonder so different and so superior that Chrysler was forced to build over 32,000 cars to meet the first-year demand.

Of course you don't want to drive your Chrysler over 70 miles an hour. In fact you may never go that fast. But there is something you do want that only a speed-ability of 70 miles can give.

That something is sure, steady power for steepest hill or deepest sand, a pick-up to flash you out of a traffic tangle, sturdy, dogged pull so you can throttle to five, even two miles an hour, on high without "bucking."

That's Chrysler performance in a nutshell. You surely must drive the car. It's the only way you can fully appreciate that it is the best built car you ever rode in. We are always eager to demonstrate the Chrysler.

TO YOUNG MEN!

This is specially addressed to the young men who are following the trend of style especially as regards trousers. If you want the bell bottom trousers, with or without cuff, here is the place to get them; we are making and have made recently some splendid examples of this style. This also applies to the straight hanging English trousers hanging free from the hips to the cuff; with plenty of room at knees and bottom.

Why, of Course

If you want GOOD Clothes go to a GOOD Tailor. There is where you get good material, good fit and Clothes that look as if they were made for YOU, and not for the other fellow.

The Ready-to-Wear! Yes, of course. They were made for the one who buys them, very seldom for the one who fits them.

But be careful and go to a good tailor. It's cheaper and better.

SPURRELL'S are good, reliable tailors, and you make no mistake in going there.
