## Sleep

cetic compounds is bad, decidedly bad. They undermine health and shatter the constitution and the patient is steadily growing into a worse condition - often resulting in the terrible slavery and misery of the cocaine and opium habit. Sleep induced by the use of Hood's Sarsaparilla does not perhaps come as quickly, but it comes more surely and more permanently through nature's great restoring and rejuvenating channel-purified, vitalized and enriched blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and life-the blood-pure, rich, red blood.
