One glance at the room into which he ushered me showed why he cherished so marked a dislike for visitors. It was bare to the point of discomfort, and had it not been for a certain quaintness in the shape of the few articles to be seen there. I should have experienced a decided feeling of repuision, so pronounced was the contrast between this poverty-stricken interior and the polished bearing of its owner. The surprise I expressed at bold attempt at ingenuousness was better stimulated than his, I hope.
"You don't know!" I exclaimed. "Can you live directly opposite a place of such remarkable associations and

Two years ago Tunbridge Wells and

Glasgow were pointed to as bright examples in municipal ownership of telephone service. A few months ago, the former abandoned the attempt at giving a satis-

factory telephone service, and sold their plant to the National Company. Now reports are coming to hand of unsatisfactory results in Glasgow. Bailie, a journal published in Glasgow, in its issue of Sept. 9, says: "The position of the Glasgow Cor-

Cambridge, Mass., Nov. 2.-In an in-

tensely exciting and decidedly sensational football game, Harvard defeated the Carlisle Indians Saturday, 12 to 11. The closeness of the score was made possible by one of the most unique tricks tried on a football field for many years. Dillon, at the start of the second half, received the Harvard kick-off on his five-yard line and then, hiding the ball under his jersey behind his back, ran the length of the field empty-handed for a touchdown. There is apparently no rule covering this trick, so the play stood, and the score was 11 to 0 in favor of the Indians, as they had already scored a goal from the field in the first half. The run of Dillon was the feature of the game, and will undoubtedly give rise to a vast deal of discussion. The instant he caught the ball the entire Carlisle team clustered about him. a bit of trouble. They pulled out after so that no one could see what was being done.
