Bruce Line Blocked for Fourth Consecutive Day

Sattle With the Snow Still in T. R., with the exception of the Bruce, Progress - Plow Ditched -Slight Accident at Mimico.

Blocked since Saturday last, the London, Huron and Bruce branch of the Toronto, March 2—Baled Hay—For some time the receipts of baled hay at this market have been very light, and the only thing that prevented a forage tamine was the comparatively heavy deliveries of loose hay by the farmers. The dealers say that the prospects are for a good supply of hay to arrive as soon as the roads are open. There is a good deal of pressed and unpressed hay in the country, which must be got out of the way of the coming crop, and which wilk, no doubt, come forward very freely when the roads are in better condition. At present the market is quoted steady Grand Trunk Railway is still closed, in spite of all efforts to open it. All day vesterday and today a plow has been working south from Wingham and anworking south from Wingham and another north from Exeter, but up to this afternoon they had not forced their way through the blockades. Today Superintendent Higgins stated that all that it was possible to do was being done to open up the road, and it would probably be cleared by night.

At Denfield yesterday a snowplow, manned by a Sarnia Tunnel crew, was ditched by a big drift. The plow rolled clear of the line, however, and the company made no move to place it back on the rails. Today it lies in the ditch where the accident occurred. One man, a section hand, from Sarnia, was slightly injured.

market are about identical with those of the hay market. Car lots on track here are quoted unchanged, at \$5 to \$550 per

trains were running on good time. Che northern division, however, the blockade is still complete, and eight or ten snowplows are working to clear the lines. Up to noon the snow and sleet today had not affected the road, and Assistant Su-perintendent Higgins said he did not perintendent Higgins said he und not think it would, unless the storm con-tinued through the night and the sleet tinued through the night and the sleet gathered on the rails. Reports made to the Grand Trunk offices here show that the snowstorm only extends east to Woodstock. Beyond these places rain is falling in great quantities.

The local officials say no accidents of any kind have occurred on the Grand Trunk local or northern divisions, but that there was a slight accident near Mimico last night, in which the pilot of a locomotive was damaged. The damage, however, does not exceed \$100.

The storm has not interfered with the ning regularly.
