[Canadian Press.]

Montreal, Aug. 23.—Sir Charles Tupper, Bart., has written the following letter, under date of Aug. 5, to Mr. J. T. Bethune, of this city:

"My Dear Sir—I was 'ery glad to receive your letter, and to learn that a great many of the most influential Liberals were taking an active part in opposing the reciprocity agreement, which I consider fraught with danger to British institutions in Canada. The open avowal of the President of the British Empire by mutual preferential trade ought to be sufficient to arouse the active hostility of all loyal British subjects against it. Now that the question is referred to the electorate I hope this will induce all who value connection with the crown to show their determination to stand by the Empire. Buoys and Lines Are Suggested at the Danger Points-Matter Brought to the Attention of the Government.

Many residents and visitors have remarked upon the absence of life-saving facilities at Port Stanley, and the matter has been brought to the attention of the Dominion Government by Capt. Redge Moore, of the Port Stanley life saving station.

Capt. Moore has received a number of communications in regar dto the matter, and among them the following, which, has been forwarded to the authorities:

"Dear Sir,—The recent accidents have aroused the residents and thousands of summmer visitors complain of the necessity of life-saving apparatus to be placed along the wharves and beaches.

You no doubt have realized that many accidents can be averted if at least a life-buoy and dine were placed at the danger points. At present there is not even a rope of any kind, and should anyone fall in the water it is impossible to render aid.

For Long Time—Fresh Strike Trouble at Liverpool.

Liverpool's New Trouble.

Liverpool Aug. 23.— Jews are leaving Ebbwvale and Tredegar in hundreds owing to the anti-Jewish outbreaks.

Threats have been heard for a long time past against the Jews in Northumberland, the complaint being that they have a monopoly in certain businesses, such as house furnishings, clothing and jewelry, and charge exoribiant prices, It is alleged that they possess a large amount of inferior house property and compel their tenants to purchase furniture from them on the installment system. They also are accused of harship evicting tenants who are unable to pay rents.
