ELECTRIC LIGHTING THE

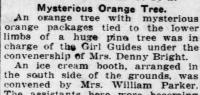

During these glorious spring and early summer days, when those of us who do not live in the country or the suburbs are busily seeking out our friends who do, it is hard to think or write about anything except the growing beauty and charm of our landscapes. Everywhere, both in country and city, there is in evidence the influence of the landscape gardener, the magazine articles which have shown how to plant shrubbery and trees and flowers effectively, and the commercial concerns which have brought within reach of the people all the decorative devices for beautifying even limited grounds and gar-

It seems to me that never before were there so many pretty yards and terraces and arbors and rock walls and flowering shrubs, with jolly little houses tucked in among them. Surely never before has the small-home dweller done so much to show his ingenuity and his love of outdoor as

well as indoor attractiveness.

At a modest suburban home I visited recently, this ingenuity had been shown in quite an unusual way. We had arrived late in the afternoon and had, of course, at mee seen the low, sloping-roofed house, the well-laidout garden, the grouping of ever-greens and rhododendrons, and the small garage built into the rear of the dwelling. But after dinner on the "Let's go out and walk in the gar-
