## CAST IRON PIPE IS UP TWO POINTS

Other Stocks Show Independent Strength on Wall Street Exchange.

Associated Press Despatch.

New York, April 29.—Wall street, noon—The senate approval of an increase in the corporation tax from 12½ to 14 per cent is regarded by some brokers as a contributing influence to the selling movement which continued throughout the morning. Several feeble railies were staged in the pivotal issues, but they met with little support. United States Cast Iron Pipe, which was weak at the opening, recovered its loss and climbed 2½ points above yesterday's final quotation to 93%, a new 1924 high. General Electric, International Business Machine and Reynolds Tobacco "B" also showed independent strength. Yellow Cab extended its loss to 2½ points, and Baldwin, Studebaker, Philadelphia and Reading Coal and Iron, Cuba Cane preferred, South Porto Rican Sugar, Mack Truck and Stewart-Warner were added to the list of stocks to sell one to two points below yesterday's final figures. Call money opened at 3¼ per cent.

It is felt that if the holiday is postponed until Monday many workingmen will be losing an extra day. Also the proposed change is being opposed by Orientals in this city, arrangements having been made for holding their big ceremonial in London, on that date, and if the change goes through it will be necessary to cancel all plans made.

# **MONTREAL STOCK**

Montreal, April 29.—After a quiet opening this morning the stock market showed some activity as the session advanced. The most active issue was B. E. Steel Corporation, 2nd pfd. which on a sale of 800 shares was down a point to a new ecord for all time at 8. Other stocks which were down were Steamships pfd off 1½ to 49½. Laurentide off 1 to 86; Abitibi down 7/8 to 54¼ and bridge off four points in broken lots to 61. Illinois traction, although quoted in, came out through on April 8 at 801/8. Cement, twoards the end of the session, was sold at 87, a drop of 2 points.

Associated Press Despatch.

New York, April 28,—A decline of 1/3c was recorded in the local raw sugar market today, spot prices now being quoted at 86.15, duty paid, Sales included 10,000 bags of Cubans early at \$6.28; later 10,000 bags Cubans and 22,000 bags Porto Ricans were sold at \$6.15, all for May shipment.

Raw sugar futures closed at declines of 9 to 15 points under selling by Wall Street and trade interests, influenced by the decline in spots and more bearish crop advices from abroad. May closed at \$4.40, July \$4.59, September \$4.60, December \$4.19, all bid.

Refined sugar was easier and unchanged to 15 points lower, the list now ranging from \$7.80 to \$8.10.

### Toronto Stock Exchange Experiences a Very Dull Session Today.

IN PAPER STOCKS

Canadian Press Despatch.

Toronto, April 29.—Weakness in the paper stocks, with declines of 1 to 2 points in Brompton and Abitibi respectively, featured this morning's dull session on the local stock exchange. Trading continues to be of very small proportions, with odd lot transactions in the majority.

Opening 1¼ lower at 54%, Abitibi sold off to 54 at the close, while Brompton, opening steady to ¼ lower at 35, sold off to 34½. In both issues trading was light, just barely passing the 100-share mark in each case. Steamships preferred was also easier, selling off a point to 49%. Steel of Canada, on odd lot transactions, sold as low as 71, with the closing at 72, showing a net loss of 1½ from last night.

COMMODITY PRICES.

The financial analysts are somewhat baffled at present with the anomaly of none-too-much briskness in trade and at the same time extremely easy conditions in the money market. The cost of living in the United States as compiled by the department of labor decreased 1.6 per cent from December, 1923, to March, 1924, this doubtless being the result of easier commodity prices.

Brookmire, in their weekly analysis and forecast draws attention to the relation between export trade and domestic commodity production. In 1922, they say, domestic production volumes and to get above normal, while the American export trade was in an unfavorable condition. This was accompanied by heavy domestic buying, and easy credit and prices broke in the spring, the

Visible supply shows wheat decrease of 2,043,000; corn decrease, 1,960,000; oats decrease, 925,000; ye decrease, 567,000. There are indications that the wheat market is being helped somewhat by he prospect of a loan of \$50,000,000 to Jermany by the New York and Chicago banks.

Few traders are disposed to express pronounced opinions on existing conditions, as there is too much uncertainty regarding the action of Congress on the McNary and other bills. Until they are out of the way the grain trade is not expected to revive.

The fair decrease shown in the visible supply may tend toward firming the grain markets, but there is no breadth in the market sufficient to maintain advances.
