"The tramway company are our, tenants," said Mr. Lubbe. "That company is entitled to fifteen million gallons of water per day for power purposes and no more."

Aid. Fullerton—Have you sold water for power to any one else since making this arrangement?

Mr. Lubbe—"We have had no purchasers, but at present have one in sight." He was of the opinion that the best thing to be done was to build a power house at Millstream, a short distance from Parson's Bridge and about five miles from the city, carry the water from Goldstream to the power house in a 42-inch main with a capacity of eleven million gallons per day, which main with a capacity of eleven million gallons per day, which would cost the city including power house, hydraulic and electric machinery and transmission to the city lighting station on Store street \$491,000.

"We will also contract to supply," said Mr. Lubbe, "the city with water at a less rate than the tran company is paying at present. The capacity of Goldstream, if utilized for your proses, is only 5,000 h.p. On the other hand, if utilized for both power and water works purposes, a long of the power and fifteen millioned and the first many complete the remaining of the strikers are working, but the southern well there. Many of the strikers are working, but the socialists frighten them with threats of murder. No cases of murder have set been reported.

cleveland, Aug. 9—The World-News today says: At conferences now taking place at Forest Hill between John D. Rockefeller and President William R. Harper of Chicago University, plans are being formulated for the further endowment of that educational institution by Mr. Rockefeller. President Harper have arrived in Cleveland. The visit of the Harpers to the home of Mr. Rockefeller is said to be one of a social nature, but it is known that plans involving the outlay of \$50,000,000 are under consideration by Mr. Rockefeller, who desires to make the University of Chicago the greatest seat of learning in the world. It is believed that the final steps in the matter will have been taken before President Harper leaves Forest Hill, and his return to Chicago will be followed by the announcement that the world work of enlarging the scope of the university will be begun immediately.
