Very few men have gone to the drivers yet as there is not sufficient water for driving. There is plenty of snow in the woods and as soon as warm weather arrives there will be plenty of water.

KILLED HENS
Some small boys recently killed eight hens belonging to Arnold Murray. The police are on the track of the offenders. This is not the first case of this kind which has been reported to the police and the culprits should be severely punished.

YES, QUITS TRUE
The Tribune makes the very serious charge that the proprietors of the Graphic are kept busy endeavoring to pay their honest debts. We admit the charge and can only add that we are pleased that we can by constant labor and fair dealing pay our debts, even without disputing each account as it comes in and making absurd claims for rebates. We thank the editor for the compliment.

Alabastine

For Permanency

When you decorate with Alabastine you do so for permanency as well as superior artistic effect. Unlike wall paper, it does not crack. Unlike lath, it does not peel off or decay. Alabastine, you see, is a hygienic cement, made from gypsum rock. It gradually hardens and becomes part of the wall itself. If, at any time, you wish to redecorate with a different style, simply apply Alabastine over the Alabastine coating put on several years before. Call and let us show you that extra. Get a copy of "Homes, Healthy and Beautiful," the handsome book of stylish wall decorations. Price of Alabastine is 50c. for 5 lb. pail.
