Prof. Schroeder, president of the Imperial German Commission for the revision of the Bible, and who is regarded as the greatest biblical scholar in Germany, says that the biblical scholar in Germany, says that the correct translation of the text in Leviticus patent unless it be in provisions of that act conformity with correct translation of the text in Leviucus in which the objection to marriage with a deceased wife's sister is based does not refer to a deceased wife's sister at all, but only mobilitis marriage with two sisters while with of the municipal council. I would refer you and the public to the provisions of that act, Chap. 171, R.S.O., that makes every proper provision for the protection of street railways, municipalities and individual of street railways, hibits marriage with two sisters while A Stone Roadway.

If it is Alderman Shaw's intention to pave that act only that the proposed company i If it is Alderman Shaw's intention to pave Jarvis street from Queen street to the Bay with granite blocks on a concrete foundation, we recommend that a small piece of the road-way at the foot of Toronto-street be examin-way at the foot of Toronto-street be examin-ed by the official charged with drawing up the provisions of the act. Any fourth-rate have recommend that a small piece of the road-way at the foot of Toronto-street be examin-ed by the official charged with drawing up the provisions of the act. Any fourth-rate haver in the province knows that.

ASYLUM LANDS Oft. Lane

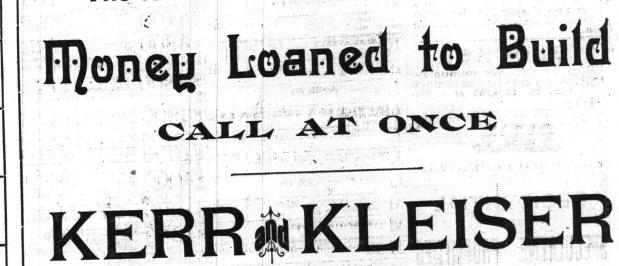

> The Attention of Builders and Others is Invited to This Property.

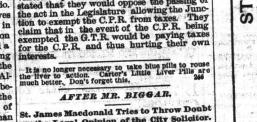

IT IS VERY CENTRAL

The lots are deep to a wide lane. Street improvements have been arranged for.

The land is the cheapest in the city--\$42 to \$46 per foot.

The terms are exceptionably easy.

town I would like to propound a It has been said that the reform in your de-

cold summers coming together, there having been a remarkable failure of the usual number of people who want it. The new member for West Lambton de-scribes the Third Party as the Keely motor of politics. Is it because it won't go? The cost of maintaining each pupil last year in the Deaf and Dumb Institute at Belleville was §180,20, as against \$176.38 the Belleville was rear. The principal increases oc-E. A. MACDONALD, unt of summer heat. And to the same original cause, we presume, must be ascribed the drought which prevailed over large sec-tions of the Northwestern States, where it. tionably far worse than it was in was unquestionably far worse "untoward cli Manitoba. Dakota has had "untoward cli previous year. The principal increases ocmatic conditions" with a vengeance, with something approaching to famine over con-siderable districts as the consequence. The curred in the items of salaries, groceries and

phenomenon is of more extensive reach than we may at first have been inclined to con-sider it. Some short time ago The New York Herald reminded the public of a fact, regard-Herald reminded the public of a fact, regard-the public of a fact, regard-the public of the discussion as unwise and one of the discussion as unwise and one of the discussion regarding shore short time ago The New York Herald reminded the public of a fact, regard-the public of the discussion as unwise and one of the di

Herald reminded the public of a fact, regard-ing which our weather philosophers are pretty well agreed, that we are now in the latter portion of a cycle of maximum sun spots. One of these periods runs about 11 years, and with the minimum of sun spots there comes a decrease of the anti-trade winds which pre-vail in the tropics, and are believed to be the minimum of the surgers and which pre-vail in the tropics, and are believed to be

A the time The World drew the attention of people here to what The Harald had been saying, and added that if this were frue, we need not wonder that climatic conditions had for several seasons been more favorable to the contry lying south of it. For while to the the contry lying south of it. For while to the the contry lying south of the boundary line the contry lying south of it. For while to the contry lying south of the boundary line the south of the contry lying south of it. For while to the the contry lying south of it. For while to the contry lying south of the boundary line the south of the contry lying south of the boundary line the south of the contry lying south of the boundary line the south of the contry lying south of the boundary line the south of the contry lying south of the boundary line the south of the contry lying south of the boundary line the south of the contry lying south of the boundary line the south of th

than to that lying north of it. For while to the southern country the new conditions enza, as it is termed, is in reality an epidemic catarrh, and is called by some physicians would make a season that was just about right the would to the no: the n count y make which we urged that there was really no necestify for Ontario placing her regular dependance on the getting of her supply of hay from the United States, seeing that the temporary deficit here was mainly due to a for fail to add that meantime Ontario people at the most severe cases of here they might be in need of. There need be no doubt of the fact that was also what caused the cool summer, or the failure that full, oppressive headache as this sees on the catarra to receipt of these througe and relieve the dull, oppressive headache as this must caused the cool summer, or the failure the failure of the season which climate the most severe cases of here without a bottle of Nasal Balm in the house, as cold in the head and catarra there are also as the most severe cases of the property inable to attack people at the failure of the season of the fact that meantime on the failure of the fact that in the failure of the season where the failure the failure the second of the fact that near the most severe cases of the property inable to attack people at the failure of the season of the fact that the sease of the thouse, as cold in the head and catarr here are catered to the public. Easy to us and relieve the dull, oppressive headache as the set of the season of the fact that the thouse as cold in the head and catarr here are also the cool summer, or the failure the dull, oppressive headache at the failure the dull, oppressive headache at the failure the season of the fact that the sease of the properties of the season of the fact that the sease of the properties of the season of the fact that the season of the fact that the sease of the sease of the season of the fact that the sease of the sease and \$1 per bottle by addresse the sease of one that was much too chilly. From all

far west—as in Dakota, for instance—the conditions aforesaid were far more unfavor-shle on the other side of the boundary line than on our own. As we have said, as far as a cool summer is concerned it ought to be more favorable to the more northern coun-the states appears to be particularly liable to injury from the failure of rain. These sum-spot periods take about eleven years to run; and we have just recently had three sites cool summers in Ontario—1887, **B**. **E**. **Co.**, **B**rockville, Ont. **Puritan Cut Plug.** is not a "cheap" tobaccos, procurable, and is placed on the marked of for a day or a year, but for "all time." Those who have tried it pronounce it a remarkably fine, cool and is weet smoking tobaccos, with every facility for manufacturing and pur-chasing, insures the smoker a good article at a price consistent with the quality of same.
