Branch Institution Established For a considerable length of time the gold cure for drunkenness has been administered at Dwight, Ill., with undisputed success. Many hundreds of men, enslaved by the Irink habit, have found in this cure an cipator. They have gone to nstitute hopelessly enslaved and have

institute hopelessly enslaved and have come forth in a few weeks free men. Several in Toronte have received lasting benefit from the gold cure, and are naturally loud in its praise.

The success of the institute at Dwight has induced a number of gentlemen to form a company to introduce the gold cure into Canada, They have established an institute at Grimsby, Ont., and a number of patients are now receiving the cure. The fact that the institute is close by relieves victims of drunkenness of the necessity of expensive outlays in traveling. A few weeks' treatment at a moderate fee is all that is necessary to accomplish their entire relief from the drink habit.

Those desiring full information should write to the secretary of the Gold Cure Company, Grimsby, Ont.

A Few Misconceptions. Editor World: I often wonder whether i be more an object of pity or of anger that Protestants write so flippantly of Catholic matters of which they are intensely ignomatters of which they are intensely ignorant. I know that personally I get angry first and only incidentally feel the pity, Yet pity 'tis, a twofold pity, pity they don't know better, for I am unwilling to be lieves that Anower men and women would write so wrong; if they knew the right, Pity they won't loarn, but they who embark on the high sea of religious portraiture are no novices, they are not readily to be approached, nor will they willingly capitulate if you point a catechism at them or a religious primer. They are already quite confident of their sufficiency, and that contained its their bane. One has contained the impression that catholic Church very for charches, or her ceremonial, or her religious foundations, however blundering may be their statements. I remember that a few years ago a Toronto paper (not The World), describing in very fervid. style a gorgeous ceremonial, spoke rapturously of the intensity of the moment when the acolyte elevated the host! Henry Allen & Co. to John J. Dixon & Co.: Activity has not shown itself in to-day's market, though there was general expectation of it; for the most part stocks have been heavy, a little pressure to sell one or two stocks by what seemed to be long interests induced bear attacks, but there were no slumps worthy of consideration except in sugar, upon which trust it is believed the Government is ready to descend. The same trouble threatens the Cordage people. It is known now that the office of the Attorney-General has commissioned representatives to make investigations into the working of these combinations, and doubtless there will be suits being interfered with, but however much stock market prices may do at the moment knocked down the final and controlling influence will be best of things, but the bears are wide-awake and are benefiting somewhat by the market's drow-siness.
