

HEALTH RESTORED!!

HOLLOWAY'S PILLS.

Surprising Cure of a confirmed Asthma, after five years' suffering. The following testimonial has been sent to Professor Holloway, by a Gentleman named Middleton, of Scotland-road, Liverpool.

SIR.—Your Pills have been the means, under Providence, of restoring me to good health, after five years of severe affliction. During the whole of that period I suffered the most dreadful attacks of Asthma, frequently of several weeks duration, attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution, that I was unfitted for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigour to the chest and digestive organs. I am, Sir, your obedient servant,
(Signed) H. MIDDLETON.

A Permanent Cure of a Diseased Liver, of many years duration.

Copy of a letter from Mr. Gamis, Chemist, Yeovil, to Professor Holloway.

Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious Complaints I may mention the following case. A lady of this town with whom I am personally acquainted, for years was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that she could not survive her sufferings, and it was she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health, was induced to continue them until she was cured. This is ago, and she has not since been troubled with any of the symptoms of the disease.

Now Publishing By JOHN TALLIS & CO. OF LONDON THE LIFE AND TIMES OF THE LATE Duke of Wellington; By Lieut. Col. Williams; (a Companion to Arms, of His Grace.)

Comprising the Campaigns and Battle-Fields of Wellington and his Comrades, the Political Life of the Duke and his Contemporaries, and a detailed account of England's Battles by Sea and Land, from the commencement of the Great French Revolution to the present time, interspersed with Anecdotes, Personal Incidents, and Adventures, &c.

ADDRESS. The earthly career of Arthur Duke Wellington has closed; one of the greatest men of the nineteenth century, the foremost military commander of any age, has paid the debt of nature. The time has not arrived for giving to the world a History of the Great Captain—of the Events of his Life and Time—a life marked by patriotism, probity and honour, and events the greatest which have ever agitated the civilized world, and whose influence will be felt upon society till the end of time. Such a work must appeal to the best and proudest feelings in the heart of every man.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are composed not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained. The remedy is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimony and injurious qualities by this, each individual virtue only being retained. Hence it is self-evident the effect should prove, as they have proved more purely beneficial, and the Pills a more powerful antidote to disease than any other medicine hitherto known.

As it is frequently the case that my medicine should be taken under the sanction of a physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address. Of all the Patent Medicines that are offered, how many would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merit. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it to healthy action—regulate the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting whatever they feel such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute Directions, see the wrapper on the Box.

THE ALL-HEALING REMEDY!!!

Holloway's Ointment.

A most astonishing cure of Scrofulous Ulcers—a case certified by the Mayor of Boston, Lincolnshire. Copy of a letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

Dear Sir,—Mrs. Sarah Dixon, of Liquorpond street, Boston, has this day deposed before me, that for a considerable time she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot; and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines, for a short time longer, according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, dear Sir, your truly,
(Signed) J. NOBLE.

An extraordinary and rapid cure of Erysipelas in the leg, after medical aid had failed. Copy of a letter from Mrs. Elizabeth Yeates, of the Post Office, Adwick Road, near Bognor, Sussex, dated Jan. 12th, 1853.

To Professor Holloway, Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg, and restored me to the enjoyment of health.

I shall speak with the utmost confidence of your medicines, and have recommended you to others in the neighbourhood similarly afflicted, who derived equal benefit. I am, Sir, your obliged and faithful servant,

A dreadfully diseased Ankle cured after being given up by the Faculty at Malta and Portsmouth Hospitals. The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King St. Norwich.

Copy of a letter from Captain Smith, of Great Yarmouth, dated January 19, 1853. To Mr. Dixon.

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's valuable medicines. Mr. John Walton, late in Her Majesty's Service, in the British fleet at Malta, had a very bad ulcerated ankle, and after being in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months; there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his ankle became so much worse that all hope was lost. At this period, by my advice he tried Holloway's Ointment and Pills, which by unremitting application, healed all the ulcers, and restored him to perfect health and strength.

I remain, dear Sir, your very truly,
(Signed) JOHN SMITH.

Surprising cure of a bad Breast, Nervous Debility, and general ill health. Copy of a letter from Mr. T. F. Ker, Chemist, &c., Lower Moss Lane, Manchester, dated Feb'y 12th, 1853.

To Professor Holloway, Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mrs. Maria Bell, of Pitt street in this town, had been for a considerable time labouring under nervous debility, loss of appetite, and general ill health, accompanied by ulcerated wounds in the breast. She had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial results, in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind she was persuaded to have recourse

to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain, dear Sir, your faithfully,
(Signed) T. FORSTER KER.
