

# The Ordinary GRAVITY STAMP BATTERY

involves a heavy expense in installation and is suited only for large developed mines of low grade free milling ore. We make and equip gravity stamp mills of the best design, also concentrating mills for any specified service. But for opening up

## FREE MILLING GOLD PROSPECTS

we recommend and offer to the public our

# American Steam Stamp

This is not altogether a Yankee invention, for it is in part the steam hammer of Nasmyth, adapted to gold milling. There is no question but that its "steam hammer" valve will give no trouble. There is no question but that its "wedge-base" adjustment for wear of shoes and dies "cuts the Gordian knot" of difficulties which have impaired the value of other steam stamps. There is no question but that it strikes rapid heavy blows, has large screen surface and capacity, is adaptable to any ore, and can be installed for large duty at comparatively small expense. There is indeed no reason why it will not help you more than any other machine in making a paying mine out of your gold prospect.
