

**TWO-POINT  
BARB FENCING**  
*GLIDDEN PATENT.*

"Regular" Barbs, 5 inches apart.  
"Thick-Set" " 2½ " " "

WE are the largest manufacturers of Wire and Barbed fencing in the world, and own a large number of patents for different styles of Barb Fencing. After much experimenting, we have decided that the Glidden Two-point is the best that can be made, in which decision we are sustained by every farmer, stock-raiser or railway that has ever given it a trial in comparison with other kinds. The wire used in its manufacture is made by us at our factories in Worcester, Mass., by our special patented processes of rolling, drawing, tempering and galvanizing, which insures to the purchaser a superior material, at the same time the construction of the "Two-point" is such that the least possible quantity of wire is used for barbs, therefore giving to the consumer the greatest length, strength, elasticity and durability for his money. Descriptive Pamphlets on application.

Washburn & Moen Manufacturing Co.,  
28 ST. PETER STREET,  
MONTREAL, QUE.

**ONTARIO MILK BUCKET**  
Manufacturing Co.,  
159 QUEEN ST. EAST, - TORONTO.

**THE COMBINED MILKING BUCKET  
AND STOOL**  
Saves Time, Saves Milk and keeps it  
**PURE AND CLEAN.**

The use of this Bucket avoids filth of every kind and stable odors. It does away with the wooden stool. Cows cease kicking, as they cannot spill the milk. It enhances the value of dairy butter. It is mutually acceptable to the milkman, his patrons and consumers, and assists to establish the proverb, "Cleanliness is skin to godliness."  
All orders promptly filled. If there is no agent in your district, write for prices. Address
