

1887. JUST ISSUED. 1887.
**THE NEW
 ELEMENTARY GEOGRAPHY.**

Price at all Bookstores, - 65 cts.

Prepared with especial reference to conciseness, simplicity and diversity of presentation. It treats of one province or country at a time, thus enabling pupils to obtain an uninterrupted view of its geography, physical, civil, descriptive and comparative, and to observe the effects of climate and productions upon the conditions and pursuits of the inhabitants.

Illustrations. It is beautifully and profusely illustrated with the finest designs and engravings ever published in a Canadian School Book.

Commercial Geography, comprising productions, exports, imports, and the principal routes of trade and travel, is given particular prominence.

Plan. The book has been most carefully arranged. Beginning at the school-grounds the pupils go over their county, province, country, continent and the world.

Workmanship. The type is all new, of modern pattern, and sufficiently large; the printing is executed in the highest style of the art, and the binding neatly and substantially done.

The Maps are beautiful, clear, and not overcrowded with unnecessary names. They show the standard time at the top; height of land and depth of water, in profiles or sectional views, at the bottom; and comparative latitude on the sides. Highlands, lowlands, and principal products are shown in small charts. The largest city in each country is distinguished from other cities by being printed in larger letters.

Such **foot-notes** are given throughout the text as will aid the teacher in adding interest to the lesson.

To the Friends of Temperance!
 At the suggestion of many temperance workers, GRIP'S
 TELLING CARTOON,
"STOP THE DEATH FACTORIES!"

has been published in the form of a fly-sheet, for distribution in localities in which Temperance or Prohibition work may be carried on.

It is believed that this sheet will prove a most effective agent in the spread of the Prohibition sentiment, vividly portraying, as it does, the terrible results of the traffic in rum.

It would be distributed by means of the various temperance organizations, as well as by individual friends of the cause. To encourage this distribution, copies printed on good paper, and with suitable legends, are offered at the following low prices:

100 copies,	\$ 1.00.
500 "	3.00.
1,000 "	5.00.

Samples will be forwarded to all desiring to order.
