**Music.**—Prizes offered for instrumental Bands:—For the Best Canadian Amateur Band, consisting of not less than eight performers, of whom there shall not be more than two professional artists. \$60 40 20.

Each Band will be required to execute the following pieces of music, viz:—The National Anthem; Rule Britannia; a quick Step; Waltz; Song; Polka; Set of Quadrilles, and a Medley, or Operatic Piece; and to be on the grounds under the direction of the Committee during the continuance of the Exhibition. Apply to the secretary of the Board at Montreal.

**EDITORIAL DEPARTMENT.****THE MONTREAL PROVINCIAL EXHIBITION.**

We have much pleasure in publishing at this early period of the year the Prize list of the coming exhibition to be held in Montreal on the 14, 15, 16, 17 and 18th September next. The success of these great gatherings of our industrial productions depend to a very great extent on the diffusing throughout the province of proper information as regard the time and place of the exhibition together with the amount of prizes offered. With the view of securing prompt action in every department connected with the exhibition it has been decided that three great divisions should be adopted as to the organization of the Agricultural, Industrial, and Horticultural Departments—each being respectively under the special control of the Board of Agriculture, of the Board of Arts, and of the Montreal Horticultural Society. Each is to publish its own prize list and manage the details coming under its own department. Thus

the Board of Arts will publish their own prize list and so will the Montreal Horticultural Society. For general arrangements only will the united control of every department be requisite.

We now publish the Agricultural prize list, and we have reason to believe the industrial and Horticultural prize lists will soon follow. Some \$12,000 will be offered for prizes and we can fairly anticipate that this provincial exhibition will prove the largest and most successful gathering which ever took place in the whole Province. The provincial exhibition of Upper Canada takes place this year at Kingston the week following so that we are in hopes that several of the leading western exhibitions will favor Montreal with their presence, before going to Kingston. Indeed, we have personally the promise of several of the leading farmers of Upper Canada, that they will compete at Montreal this year, and test their superiority over the Lower Canada traders. With this view the
