

MEDICAL JOURNALS,

Published by RICHARD and GEORGE S. WOOD No. 261 Pearl Street, New-York.

THE BRITISH AND FOREIGN MEDICO-CHIRURGICAL REVIEW, AND JOURNAL OF PRACTICAL MEDICINE.—Published Quarterly, at \$3 per Annum.

THE MEDICO-CHIRURGICAL REVIEW had, for very many years, a reputation unequalled by any other journal, as the leading Medical Journal of Europe, and a standard work in medical literature. Being republished in this country for more than 25 years, it was universally known to the Medical Profession here, and was pronounced by some of the most eminent "the best medical journal extant." The British and Foreign Medical Review, though not so long established, was nearly as well known, and was conducted with such spirit and talent, as fully to entitle it to rank with its illustrious predecessor. These two works are now united, (under the above title,) and will be sustained by the united contributions of the writers, whose talents have given such eminence to both. Of the merits of the work produced by this combination, nothing need be said. The American republishers hope, however, to increase its value by their

ADDENDA TO THE MEDICO-CHIRURGICAL REVIEW, OR QUARTERLY RETROSPECT OF AMERICAN PRACTICAL MEDICINE AND SURGERY:

A valuable Abstract of American Medical Intelligence; compiled from all the American Medical Journals; which will be sent *gratuitously*, to all who remit payment to the publishers, postage free, in advance.

THE ANNALIST: A RECORD OF PRACTICAL MEDICINE IN THE CITY OF NEW YORK.

Edited by William C. Roberts, M.D. Fellow of the College of Physicians and Surgeons, New York.—Published Semi-Monthly, Price Two Dollars per Annum, in advance.

The vastness of its medical resources rendering New York as much the medical as it is the commercial metropolis of the Union, the importance of this journal as a record of the progress of the medical sciences in this city, and an organ of communication between the members of the Medical Profession here and those abroad, must be apparent to all.

WOOD'S QUARTERLY RETROSPECT OF AMERICAN AND FOREIGN PRACTICAL MEDICINE AND SURGERY.

Price One Dollar per Annum, in Advance.

This work is designed to meet the demands of this "high-pressure" age, by furnishing the physician and surgeon the means of keeping pace with the progress of knowledge in their respective departments of science, at the *least possible cost of time and money*. It consists of condensed reports of cases and their treatment, with occasional remarks, and abstracts of the medical literature of the day, collected from the whole field of medical science, American and Foreign, with announcements of all new publications of interest to the profession.

Its plan is, in the main, that which has been so much approved in "Braithwaite's Retrospect," and "Ranking's Abstract;" with the superadded advantages of a fuller view of *American Medical Literature and Science*, a more frequent emission, and reduction of price; and it is hoped will meet with the general approbation of the Medical Profession. It was suggested by some members of the profession as a desideratum in medical literature not yet supplied by any journal; and the publishers intend, if well sustained in the undertaking, to spare neither pains nor expense to make it worthy of the most extended patronage.

It will be seen at once that, at a price so low, it can only be supported by a very extensive circulation; but the advantages offered are such, that this is confidently anticipated; and they request all to whom this is sent who approve the plan, to aid them by bringing it to the notice of their professional brethren.

Authors and Publishers wishing their works reported, will please forward copies.

RECOMMENDATIONS.

A work like "WOOD'S QUARTERLY RETROSPECT," presenting a view of American and Foreign Practical Medicine and Surgery, so extended as to omit nothing of material interest, yet so condensed as to meet the demand of those who want of time or means prevents their access to the various sources from which it is compiled, was much needed, and we cordially commend it to the patronage of every member of the Medical profession.

Since its first appearance the RETROSPECT has met with general approbation; and many testimonials in its favor might be produced; but the publishers deem it unnecessary to give more than the foregoing from the Professors of the two Medical Schools of New York; hoping that as the price is so low, those who wish to know more of it, will give it a trial for one year and ascertain its character from the work itself.

Subscribers in ordering these works will please write their names legibly, and at full length, adding their respective titles and the names of the town, county, &c., of their residence.
