SANMETTO IN BRIGHT'S DISEASE.

Charles F. Reiff, M.D., of Fremont, O., writing, says: "I prescribed Sanmetto in a case of advanced Bright's Disease. The patient became more comfortable, and since then has used several bottles of Sanmetto. In my opinion Sanmetto is the most efficient remedy for diseases of the genito-urinary organs, and I shall continue to prescribe the remedy."

SANMETTO IN DIABETES MELLITUS.

R. A. Miller, M.D., of Atchison, Kan., writing, says: "I used Sanmetto in a severe case of diabetes mellitus in a gentleman fifty-four years of age, in which there was an excessive flow of urine, patient having to arise some four or five times during the night, severe irritation at neck of bladder and enlargement of the prostate gland, dry hot skin, with considerable emaciation. After using Sanmetto for three or four days the trouble was greatly improved, patient not having to arise more than once during the night, and has since, by the use of one more bottle of Sanmetto, almost recovered. I think Sanmetto a most excellent remedy."
